Nos. 6 and 7 have a knuckle joint, turning in all directions, for washing the under surface of the leaves, and freeing them from insects. Nos. 3 and 5 are style of No. 2. No. 3 has best plate valves. No. 5 has best conical valves. Nos. 2, 3, 5 and 7 have side pieces attached, on which the Roses are screwed when not employed, as shown in fig. 2. The spray Roses of No. 4 are placed in the handle when not in use.

VEGETABLE PLANTS.

CABBAGE.—Henderson's Early Summer, Early Wakefield, Early York, and Winingstadt; by mail, per 100, \$1.00; by express, 1,000, \$5.00. Ready May 1st.

CAULIFLOWER.—Early Snowball, Lenormand's Short-Stemmed; By mail, per 100, \$1.50; by express, per 1,000, \$10.00. Ready May 1st.

CELERY.—Crawford's Half Dwarf, Golden Heart, Boston Market, Sandringham; by mail, per 100, \$1.25; by express, per 1,000, \$7.50. Ready May 15th.

EGG PLANT.—Early Long Purple, Improved New York Purple; by mail, per dozen, \$1.00; per 100, \$5.00. Ready May 15th.

PEPPER.—Monstrous or Grossum, Sweet Mountain, Cayenne, Yellow Cherry, Red Cherry; by mail, per 100, \$5.00; per dozen, \$1.00. Ready May 15th.

TOMATO.—Acme, Hubbard's Curled Leaf, Paragon, Perfection; by mail, per dozen, 75 cents; by express, per 100, \$3.00. Ready May 1st.

MISCELLANEOUS.

Whale Oil Soap, by freight or express, at expense of purchaser, 1 lb. bar, 20 cts.; 2 lbs., 35 cts.; 5 lb. bar, 80 cts.; 10 lbs., \$1.50; 20 lbs., \$2.50; by mail, prepaid, 15 cts. per pound additional.

Tobacco Soap, $\frac{1}{2}$ lb., 40 cts.; 1 lb., 75 cts.; by mail, prepaid, $\frac{1}{2}$ lb., 50 cts.; 1 lb., 75 cts. 1 00

Gishurt's Compound, for destroying Red Spider and all insects, per box, \$1.00; mail, prepaid, 1 25

Peruvian Guano, 1 lb., 15 cts.; 5 lbs., 50 cts.; by mail, prepaid, 1 lb., 15 cts.; 5 lbs., 50 cts. 30

Edging Knife, by express, not paid, 1 50

Hand Forks, small, by mail, prepaid, 35

Grafting Wax, $\frac{1}{4}$ lb., 15 cts.; $\frac{1}{2}$ lb., 25 cts.; 1 lb., 40 cts.; 2 lbs., 75 cts.; by mail, prepaid, $\frac{1}{4}$ lb., 20 cts.; $\frac{1}{2}$ lb., 35 cts.; 1 lb., 60 cts.; 2 lbs., 1 10

Floral Fertilizer, by express, not paid, per package, 10 and 25 cts.; by mail, prepaid, . . 15 and 40

Garden Trowels, 6 inch, 25 cents; 7 inch, . . . 35

Garden Lines, solid braid, by express, not paid, 100 feet, 40 cts.; 200 feet, 75 cts.; by mail, prepaid, 100 feet, 55 cts.; 200 feet, 1 00

Lawn Mowers, illustrated circular sent on application.

GARDEN DUST.

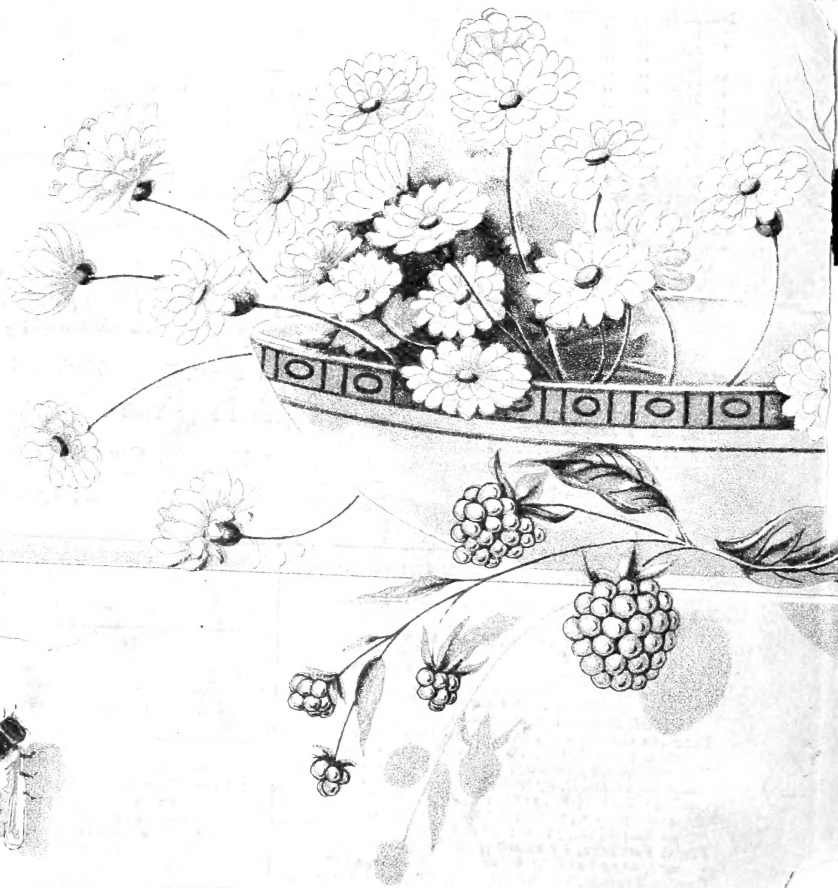

Garden Dust is the best insecticide we have ever used. It effectually destroys Cabbage lice, the striped Squash bug, &c. By mail, per pound, 35 cents; by express, 10 pounds for 50 cents; \$4.50 per 100 pounds.

IRON RESERVOIR VASES.

The peculiar feature in these vases consists in the reservoir for water. They do not need watering oftener than once in ten or fifteen days, according to the size of the vase. The moisture being drawn up by capillary attraction, the ground does not become caked and hard. Illustrated circular sent on application.

ONE WORD MORE.

Very often some of our friends write us about a previous order or letter, which necessitates our hunting up the first correspondence. In order to at once turn to any letter from any one of our thousands of customers it compels us to be very systematic. For some years past we have used the plan of filing (putting away) the orders and correspondence by the name of the postoffice from which the letter was written. This works very nicely, but sometimes our friends whose homes are about half way between two postoffices, when writing first will date their letters at one of these offices, and the next correspondence will be dated from the other. In such cases we are obliged to write for instructions, as the first letter cannot be found, which causes delay and annoyance, our friends thinking we are careless. Therefore, please remember to always date your letters at the same postoffice, or mention the one from which you last wrote.

CATALOGUE

NEW, RARE AND BEAUTIFUL PLANTS.

New, Rare and Beautiful Plants.

BOUQUET OF MOSS ROSES.—*See Colored Plate.*

The varieties figured in plate, of this charming group of Moss Roses, will be found described in Catalogue 5, a copy of which will be mailed to applicants.

The New Roses for 1884 are described in Catalogue 5.

***MADAME GUSTAVE HENRI, (LEM.)**—New Pelargonium.

Rosy carmine, with a white centre, deep purple blotch; large umbels, neat compact habit, and free bloomer. A very lovely flower. 75 cents.

***BELLE DE JOUR, (LEM.)**—New Pelargonium.

This beautiful Pelargonium has flowers of the purest white, semi-double, produced on stiff, erect stems most profusely, fine habit. A grand plant. 75 cents.

***WHIGS ET TORIES, (LEM.)**—New Pelargonium.

"Brilliant carmine blotched with maroon, centre white, trusses immense, free vigorous habit and free bloomer. An attractive and beautiful flower." 75 cents.

***PETRARQUE ET LAURE, (LEM.)**—New Pelargonium.

"Color lilac mauve beautifully veined, white centre, upper petals marked with maroon; large, beautifully formed; trusses freely produced. Very distinct and fine." 75 cents.

***JULES JACQUEMART, (LEM.)**—New Pelargonium.

Truss enormous, with large finely formed flowers, color a lovely bright vermillion, with a delicate centre; petals nicely undulated, and profuse bloomer. 75 cents.

***GUELFES ET GIBELENS, (LEM.)**—New Pelargonium.

"A grand flower, giving magnificent trusses very profusely, color white striped with satiny lilac, centre white; a very lovely flower." 75 cents.

***PRINCE OF TECK, (LEM.)**—New Pelargonium.

Rich crimson tinted with violet, petals veined and spotted with maroon; large umbels, compact habit and profuse bloomer. A very beautiful variety. 75 cents.

***UKRIAN.**—New Pelargonium.

"Upper petals bright crimson, blotched with maroon and edged with white; under petals deep rose edged with white; white centre, shaded with violet, the petals slightly fringed; a very free and pretty variety." 75 cents.

***ROI ARTHUR, (LEM.)—New Pelargonium.**

"Petals white, bordered with carmine, and lined with purple—fine truss, good habit and free—a very beautiful flower." 75 cents.

***OUIDA, (LEM.)—New Pelargonium.**

A beautifully formed flower with undulated petals; white, lightly striped with violet in the centre—very chaste and lovely. 75 cents.

***JEANNE D'ARC. (LEM.)—New Pelargonium.**

A lovely white flower, semi-double, fine large trusses, excellent habit; a chaste and lovely flower. This flower will be largely grown. 75 cents.

NELLY HAYES.—Decorative Pelargonium.

A vigorous grower and compact habit; very pale rose peach color with puce spots, large umbels; a fine market plant. 50 cents.

***ROYALTY.—New Pelargonium.**

"Vigorous, compact habit, trusses and flowers immense; flowers pure white, beautifully feathered with mauve; a very fine variety." 75 cents.

***SCRIBE. (LEM.)—New Pelargonium.**

"Habit free and compact; large umbels of finely formed flowers; color violet maroon bordered with white, lower petals rayed with violet." 75 cents.

***MISS MARY C. SAUL, (SAUL.)—New Pelargonium.**

This beautiful new flower originated in our establishment. It is compact, good habit, very free flowering, trusses large and finely formed; color deep rich crimson, dark blotch, smooth edge, a lovely flower. This is a strikingly rich and beautiful variety; from its fine habit, profuse blooming qualities, rich, distinct color, places it as one of the finest market plants possible. 50 cents.

***MISS ROSINA M. SAUL, (SAUL.)—New Pelargonium.**

Another of our beautiful new Pelargoniums, of excellent compact habit, free growth and profuse bloomer, fine trusses—color upper petals crimson, with dark blotch, lower petals light crimson; centre white, all beautifully reticulated with crimson, slightly frilled. 50 cents.

NEW DOUBLE GERANIUMS.

	Each.
Admiral Seymour. Very large well formed trusses of a deep amaranth.....	\$0 50
Boule de Feu. Large finely formed trusses of an intense scarlet.....	0 30
Flambeau. Very large trusses; an intense scarlet; extra	0 50
Khediye. Delicate rosy flesh, shaded with white; good habit and profuse bloomer.....	0 50
Magenta King. Very rich Magenta; large trusses, good habit and profuse bloomer .	0 50

Jasper. "Very large trusses of deeply shaded bright orange flowers with white eye, compact habit and early bloomer,".....	0 25
May Queen. "Ground color flesh, half upper petals pure white, with margins of white on lower petals, very large trusses, finely shaped, a beautiful variety,".....	0 25
The above 34 new and beautiful varieties, \$9.00.	

NEW REGAL PELARGONIUMS.

This name is applied to that magnificent group of Pelargoniums the flowers of which are of large size, very rich and showy; a few are double, and although the others are not really double, yet from their fullness of form and the extra number of petals, they have the appearance of being so.

Beauty of Oxtou. The upper petals are of a very rich maroon, darkly blotched; under petals very dark crimson, shaded with maroon; light centre; all the petals margined with white, and beautifully fringed. Flowers large and full.....	0 50
Captain Rakes. The trusses are both numerous and large, whilst the individual flowers are large and full, upper petals deep fiery crimson, flaked with purplish black and bordered with carmine; lower petals clear, bright, fiery, crimson.....	0 50
*Duchess of Bedford. One of the most useful and charming of this highly decorative section of Pelargoniums. Its blossoms are of the purest white, prettily fringed, with a feathered spot of delicate rose in the upper petals. Its habit is dwarf and compact.....	0 50
Dr. Masters. A splendid variety. The trusses are large and in great profusion; it is semi-double, the upper petals having large black blotches in the centre, with a narrow margin of rich crimson, the lower petals having a smaller blotch	0 50

	Each.
Mrs. John Saul.—(<i>Colored plate in 1878</i>). This beautiful flower, which originated in our establishment, we consider one of the very best in cultivation. The habit is compact and very free flowering, producing large trusses of charming flowers. The color is a rich glowing vermillion, with light centre and light margin to the petals,	\$0 50
Triomphe de St. Maude. One of the best high colored varieties in cultivation. The habit close and short-jointed; it is profuse of bloom, and the flowers are large and of massive substance.....	0 50
Le 20 Fevrier. In the style of Prince of Pelargoniums; color brilliant orange vermillion blotched with maroon on upper petals, lower petals light color, nicely fringed, magnificent.....	0 50
*Mad. Gustave Henri. Beautiful rosy carmine, with white centre, blotched with purple, semi-double. Fine truss and habit—a beautiful flower.....	0 50
Madame Evard. A most distinct variety; the flowers are very full, with beautiful crispy petals of an exceedingly bright purplish crimon color, richly spotted with dark maroon.....	0 50
*Madame Thibaut. White, richly blotched and marbled with rose; the upper petals marked with crimson maroon; large white centre; immense trusses of very large fine flowers, with undulated petals.....	0 50
M. Ph. Zeller. A distinct and showy variety, producing very large and full flowers, of a rich fiery crimson color, bordered with rose and spotted with very dark blackish red,	0 50
Queen Victoria. This is the handsomest variety ever offered. The flowers have peculiarly crispy petals; they are not really double, but from their fullness of form and extra number of petals have the appearance of being so. The color is a rich vermillion, all the petals broadly margined with pure white, and the upper ones blotched with maroon.....	0 50
Striata Elegans. This is one of the large flowered exhibition group of Pelargoniums. The flowers are a magenta rose, being flaked or barred with elegant blue mauve, the top petals have a black feather-like plume, unique in its combination of colors..	0 50
Theophrasta. A very beautiful Pelargonium, flowers double crimson, freely produced; a very desirable variety.....	0 50

PELARGONIUMS.—New Varieties with Fringed and Striped Petals.

*Queen of Stripes. The flowers are of good outline and substance, petals overlapping, color elegant blush white, the petals being finely striped or barred with brilliant carmine-rose, each of the upper ones being marked with crimson lines surmounted with an intense crimson blotch.....	0 50
Gloria Patriæ. Color purest white—nearly all white, with a few veins of crimson on upper petals; compact habit, free flowering. An exceedingly chaste and lovely flower.....	0 50
Crispiflora. White, with rose blotches shaded lilac and blue, and beautifully fringed, a lovely variety in the style of Dr. André, early and profuse bloomer, fine habit...	0 50
*Defiance. A very beautiful new Pelargonium.....	0 50
Lapis Lazuli. Another of those beautiful frilled French Pelargoniums; color blush white with scarlet belted blotched, elegantly frilled like Dr. André, equally beautiful with the others described, neat habit, early and profuse bloomer.....	0 50
Mad. Vibert. Fine black maroon blotches, bordered fiery red, the flower entirely edged with rose, vigorous grower, fine habit and free bloomer; a grand flower.....	0 50
*Marie Lemoine. A very beautiful variety, large truss and flower, color white, beautifully fringed; in the way of Empereur des Pelargoniums, but of much finer form and greater substance; extra fine.....	0 50
*Miss Teresa M. Saul, (Saul). In habit similar to our two preceding, and of free growth and profuse bloomer; beautiful trusses. Color upper petals orange vermillion, with dark blotch; lower petals lighter shade, centre white. The colors of this fine variety are exceedingly bright and distinct.....	0 50
*Mrs. Potten. This is a charming variety; habit good and compact, trusses large, finely formed; color purest white, with very dark blotches. Received a first-class certificate from the Royal Horticultural Society of London.....	0 50
Prince of Pelargoniums. This most beautiful variety resembles in its style the well-known Dr. André, by its elegantly fringed margin and equally large flowers, but exceeds it in effect in being a brilliant vermillion scarlet ground finely relieved by a blush white centre with violet veins, and flushed with rich crimson on the upper flower lobes.....	0 50

	Each.
*Plutus. Very fine free habit, trusses enormous, color a violet rose, heavily blotched on all petals; beautiful form. A showy flower.....	0 50
Princess of Wales. Very handsome, with elegant frilled petal margins, in the style of Dr. André, flower trusses large size, ground color pure blush, each petal alike marked with a rich dark velvet crimson scarlet margined blotch. This is unquestionably one of the most beautiful flowers ever raised	0 40
Star of the East. Very fine, resembling the Princess of Wales; it is equally free and compact in growth, but with larger flowers, of pure white ground. The petals are elegantly fringed, the upper ones marked with a rich crimson spot, and the under ones elegantly pencilled with violet colored lines	0 50
Reveil de la France. Flowers snow white, spotted with rosy carmine; a delicately beautiful variety, will be largely grown	0 50
Trojan. Crimson, upper petals surrounded with bright rose and margined with pink, under petals blush, cleanly spotted with crimson.....	0 50
Volunte National. An exquisite Pelargonium, of a fine, free, yet compact habit, and produces numerous large and symmetrical trusses of bloom, flowers white, with a warm salmon pink blotch on each segment, margins and throat pure white, petals fringed.....	0 50

DECORATIVE PELARGONIUMS.

The varieties here offered are largely grown for Covent Garden Market, London.

Integrity. Very free compact habit, free bloomer, color orange scarlet, white centre, purple blotch.....	0 50
Kingston Beauty. Pure white, with dark purple spot on upper petal, very vigorous and free flowering.....	0 50
Rob Roy. Rosy purple, upper petal black, white eye, fine free habit, profuse bloomer.	0 50
Mabel. Dark maroon top, narrow edge, a heavily painted flower, fine free habit and bloomer.....	0 50
Mermeris. Free, but compact habit, an early and profuse bloomer, rosy crimson, light centre, purple blotch, fine pot plant.....	0 50
Miss Maller. A very beautiful decorative plant.....	0 50
Miss Weatherill. A fine habit and free bloomer.....	0 50
Nelly Hayes. See Novelties.	
Scarlet Gem. Very bright crimson scarlet, with light margin, fine free habit, early and profuse bloomer.....	0 50

NEW PLANTS.

*DRACENA LINDENI.

"One of the most brilliant acquisitions recently made among fine foliaged plants. The stem is erect and simple, the leaves which are deep green are traversed by bands of creamy-white and yellow, handsomely variegated, a most distinct and striking variety. It is a plant which will gain a high reputation."

*DRACENA MASSANGEA.

Centre of leaf pale yellow, green margin, a very superb and distinct variety. This superb plant like *D. Lindenii*, will be extensively grown as they are two of the most distinct and graceful of decorative plants.

*HELICONIA TRIUMPHANS.

Very ornamental plant with bright green leaves, lined with greenish-black. It is a robust species having the habit of a *Maranta Zebrina* with shining foliage and which succeeds well in apartments. It is a native of Sumatra. \$3.00 each.

*HELICONIA AUREO-STRATA.

A plant of noble aspect, resembling some dwarf *Musa*, the leaves are striated with green and yellow, and become recurved at the top. The leaf deep green with the course of the parallel-curved veins, which run out from the costa to the margin, traced out by yellow lines producing a very striking variegation. \$2.50.

***SCHISMATOGLOTTIS LAVALLEEI.**

"In announcing this lovely plant we are convinced that it will become popular among lovers of fine-foliaged plants. It may be distinguished at a glance from all other species in cultivation. The texture of the leaf is flexible; the mid-rib is slightly prominent on the upper surface, and of a beautiful bright green, on which are scattered numerous silvery white spots, producing a most pleasing effect." \$3.00 each.

***PHYLLAGATHIS ROTUNDIFOLIA.**

A very beautiful foliage plant; leaves large, round, deep red underside, upper surface bright and deep when young. A fine decorative plant. \$1 50.

***AGLAONEMA PICTUM.**

This is a brilliant Aroid, with a fine rounded stem. The leaves vary in form, sometimes elliptical, oblong-lanceolate, are rounded at the base and almost suddenly acuminate at the top, from 4 to 7 inches long, and 2 to 2½ in width; they are of a lovely deep velvety green, beautifully mottled with large spots and irregular markings of a whitish hue. The mid-rib is prominent and slightly channelled on the upper face. When it is in flower it is still more attractive. The spathe is remarkable for its curious pocket-like form and its knotty spadix. \$2.50.

***COLOCASIA NEO-GUINEENSIS.**

A new Aroid, it is remarkable for its tufted habit, the shortness of the leaf stalks, and its short-stalked inflorescence, and the beautiful green tone of its smooth and shiny leaves, spotted with creamy white. It will form an interesting addition to collections of Aroidaceous plants, and probably may prove valuable for the embellishment of the out-door garden in summer, like *C. Esculenta*, now so much cultivated. \$2.00.

***EUPHARIS SANDERII.**

A very beautiful Eucharis, with pure white flowers, in the way of *Grandiflora* and *Candida*; said to be a very free bloomer. \$2 00 each.

***CIENKOWSKIA KIRKII.**

A rare and beautiful plant; has fleshy roots, flowers during summer.

***DIEFFENBACHIA MAGNIFICA.**

A truly magnificent plant, vigorous, distinct and fine habit; with large green leaves spotted and marked with pure white. One of the finest Dieffenbachias. \$2.50.

***HIBISCUS ROSA-SINENSIS "LUCIEN LINDEN."**

This splendid ornamental shrub, is without doubt one of the best varieties of the kind. The flowers are large and very double, of a pale yellow color beautifully streaked with spots and lines of brilliant red. \$1.50.

***PIPER METALLICA.**

A very decorative plant, with round leaves, thick and of a beautiful sparkling metallic green, a native of Borneo. An exceedingly pretty plant. \$1 50.

***PELLIONIA PULCHRA.**

An exceedingly pretty trailing plant, with light green foliage marked with dark spots. A charming trailing plant. \$1.00.

***PELLIONIA RHODOCANACHIANA.**

Another exceedingly neat trailing plant in the way of the preceding; resembles *Tradescantia Zebrina* in the marking of the foliage; like the last a handsome trailing plant. \$1.00.

***BEGONIA DIADEMA.**

A species of incomparable beauty and moreover of a distinct type. From the short, fleshy stem branch out numerous leaves, erect, of a delicate green, and marked with white elongated blotches. The leaves are perfectly smooth and shiny. The ground is a clear green, whereon numerous white stains are scattered, without regularity, in bands or longitudinal lines. \$1.50.

***DOUBLE SCARLET BOUVARDIA, "THOMAS MEEHAN."**

"This novelty unites the brilliant red color and profuse blooming qualities of *B. Leiantha*, with the perfect double flowers of *B. A. Neuner*." Ready in April. \$1.00 each.

***IMPATIENS SULTANA.**

A very beautiful plant from the East coast of Africa. The plant is a free grower and continuous bloomer, color of flowers a rich carmine magenta. Ready in April. 50 cents.

***STREPTOSOLEN JAMESONII.**

An exceedingly fine free flowering plant of compact bushy habit, flowers opening bright orange passing to cinnabar red, nearly an inch in diameter. A really valuable plant. 50 cents.

***STEVIA GLUTINOSA VESTITA.**

A very useful winter flowering plant for florists. 50 cents.

***SCUTELLARIA MOCCIANA.**

A new and pretty free flowering plant. 50 cents.

***MIKANIA PERVERULENTA.**

This very handsome *Mikania* will be found very useful for baskets, from its trailing habit and very distinct dark foliage. 50 cents.

***ANTHURIUM VEITCHII.**

A very handsome Aroid of striking aspect. The leaves are ovate-oblong, greatly elongated, attaining lengths of from 2 to 3 feet, with a breadth of less than one-third of these dimensions; coriaceous in texture and deep green, with a glossy metallic surface when first expanded, becoming paler by age. The principal nerves are arched and deeply sunk, giving the surface a conspicuously waved appearance. As an exhibition or decorative plant it will always take a very high position.

First-class Certificate from the Royal Horticultural Society. Price on application.

***ANTHURIUM WAROCQUEANUM.**

A remarkable Aroid. The leaves are greatly elongated, attaining lengths of from 24 to 30 inches, with a breadth of not more than 7 or 8 inches. The ground color is a deep green of a very rich hue, with a velvety lustre and appearance, with which the light color of the midrib and veins form a pleasing contrast. To the lovers of fine foliage plants this beautiful *Anthurium* will be a most welcome acquisition. \$1.50 to \$2.50.

JASMINUM GRACILLINUM.

"*Jasminum Gracillimum* is one of the most distinct in its graceful habit, and in the abundance of its large sweet-scented flowers, which are also more copiously produced. It appears to be a small species, with long, very slender branches springing from low down on the stem, and curving over on all sides, weighed down by terminal globose panicles."

As a decorative plant, *Jasminum Gracillimum* is probably the best of recent introduction. It is exceedingly floriferous; a flowering shoot is produced from every joint, which terminates in a dense cluster of pure white fragrant flowers. The plant is continuously in bloom from October to January, and its graceful habit renders it one of the most beautiful of flowering plants. 50 cents.

***ALOCASIA HYBRIDA.**

An exceedingly beautiful Hybrid, sent out by Messrs. Veitch & Sons. It is of free growth with exceedingly beautiful foliage with a metallic hue, in the way of *A. Veitchii*, but much finer; will make a grand specimen plant for Exhibitions, &c. \$1.50 to \$2.50.

***ALOCASIA THIBAUTIANA.**

A splendid foliage plant of stately and robust habit, and without doubt *by far the finest* of all *Alocasias*. For exhibition purposes it stands in the first rank among foliage plants, and in the Stove it forms one of the most distinguished ornaments. A First-class Certificate was awarded to it by the Royal Horticultural Society. \$2.50.

***GLOBBIA COCCINEA.**

"The stems are much crowded, 12 to 18 inches long and gracefully arching on all sides, giving the plant a very elegant contour. They are furnished with deep green leaves and terminate in a dense raceme of flowers, of which the bracts are scarlet and the perianth yellow. The plant is continuously in bloom during the greater part of the year." "The elegant habit of this plant, its richly colored flowers of singular structure, and their long duration, render it a most useful and interesting plant" \$1 00 each.

***BEGONIA SOCOTRANA.**

A species of remarkable interest both in its scientific and in its horticultural aspect discovered in the island of Socotra. *B. Socotrana* is a plant of very neat habit with erect stems 8 to 12 inches high, furnished with orbicular peltate leaves 4 to 7 inches in diameter, and producing a profusion of bright rose pink flowers of which the males are fully two inches in diameter. Its great recommendation is its very free blooming character, and its flowering in the depth of winter when other *Begonias* are at rest, thus prolonging the season of these beautiful plants. 50 cents.

***COLUMNEA SP.**

An exceedingly pretty epiphyte which we have introduced from Guatemala; grows well on a log with or without moss; it also grows freely in a pot; flowers creamy white covered with minute red spots. \$1.00.

***POTHOS CELATOCALIS.**

"This plant is a handsome and interesting climber, lying perfectly flat upon the surface it climbs over, being held in position by its numerous adventitious roots; and, as it is a rapid grower, it is admirably adapted for covering walls, trunks of Tree Ferns, &c. In general appearance it has much the look of the barren shoots of *Maregravia paradoxa*." 50 cents.

***POTHOS AUREA.**

The leaves are strikingly variegated, heart-shaped and unequal sided, of a dark green, boldly and irregularly marked by bands or fantastic-shaped blotches of creamy yellow, here and there suffused with pale yellowish-green. Being of free growth and having a boldly marked variegation, it will be an ornamental object in the tropical plant stove, where it will find itself at home in clothing walls and artificial rockwork. 50 cents.

***PAVONIA MAKOYANA.**

A handsome free-blooming plant of erect growth. Its corymbs of flowers are peculiarly attractive from the bracteoles being large and of a bright rosy carmine color, forming a striking contrast with the dark purple corolla. The plant is extremely floriferous, and the blossoms remain a long time in perfection. \$1.00.

***PAVONIA WIOTI.**

"A very striking flowering plant. The outer calyx consists of two whorls of narrow slender bright red bracteoles, the outer whorl shorter than the inner, which equals the closed corolla. Both the latter and the calyx are of a 'red black.'"

"It flowers continuously throughout the year, but most freely in the winter months; with its neat habit and pleasing foliage it will be exceedingly valuable for decorative purposes." 50 cents.

***MONTBRETIA CROCOSMIEFLORA.**

An exceedingly beautiful bulbous plant, a hybrid between *Montbretia Pottsii* and *Crocus Aurea*—flowers in long spikes like a *Gladiolus*; color brilliant orange and crimson. 75 cents.

***MONTBRETIA POTTSII.**

A bulbous rooted plant from the Cape. requires similar treatment to *Gladiolus*; *stem $1\frac{1}{2}$ to 2 feet high, with a panicle nine inches long, bearing long, deep bright yellow flowers; tinted outside with red. 25 cents.

***HIGGINSIA REZLI.**

A very beautiful new tropical plant, with dark bronzy leaves, streaked and marbled with white. \$1 00.

***ANTHERICUM PICTURATUM.**

Without a doubt one of the handsomest foliage plants ever introduced, in growth equal to *A. Vitatum*, the variegation is entirely distinct, having a rich creamy white band $\frac{3}{4}$ of an inch wide running through the centre of each leaf, margined on each side with rich deep green. 50 cents.

NEW TRITOMAS (KNIPHOFIA).—Flame or Torch Flower.

	Each.
* <i>Tritoma Nobilis</i> . Truly called "Noble;" a plant of very vigorous growth, throwing up a flower stem six feet high, surmounted by a foot-long cylindrical flowerhead, of bright scarlet and golden yellow.....	\$1 00
* <i>Tritoma Saundersii</i> . Also a vigorous plant; the flower stem is not quite so tall, and the head is conical instead of cylindrical; the flowers are red throughout; a fine addition to the group to which it belongs, and both should be included in the most select collections.....	1 00
* <i>Tritoma Caulescens</i> . This is a very distinct plant, rising on a stem, with a Yucca-like head of channelled, arching leaves; the flower stem is from two to three feet high, surmounted with an enormous head of brilliant blossoms.....	1 00
* <i>Tritoma Quartiniana</i> . This also rises on a short stem; the leaves are channelled, arching, rigid, their points touching the ground, and of a glaucous blue color; the flower stem is stout, surmounted by a large head of yellow flowers.....	1 00
* <i>Tritoma McOwnii</i> . A very beautiful species with orange scarlet flowers.....	0 50
* <i>Tritoma Corallina</i> . A beautiful new plant, flowers very brilliant, coral red.....	2 50
* <i>Tritoma Leitchlini</i> . Flowers rich orange vermilion, a very handsome and distinct	
<i>Tritoma</i>	1 50

***DIEFFENBACHIA LEOPOLDII.**

A South American plant of resplendent beauty. The leaves are oblong-ovate, of a rich deep lustrous satiny green, traversed by a broad stout ivory-white rib, which is bordered on each side through its entire length with a whitish band, and shows in strong contrast to the color of the leaf surface, producing a marvellously fine pictorial effect. It is one of the most handsome of the *Dieffenbachias* yet introduced. \$1.00 to \$2 00 each.

***DIEFFENBACHIA SPLENDENS.**

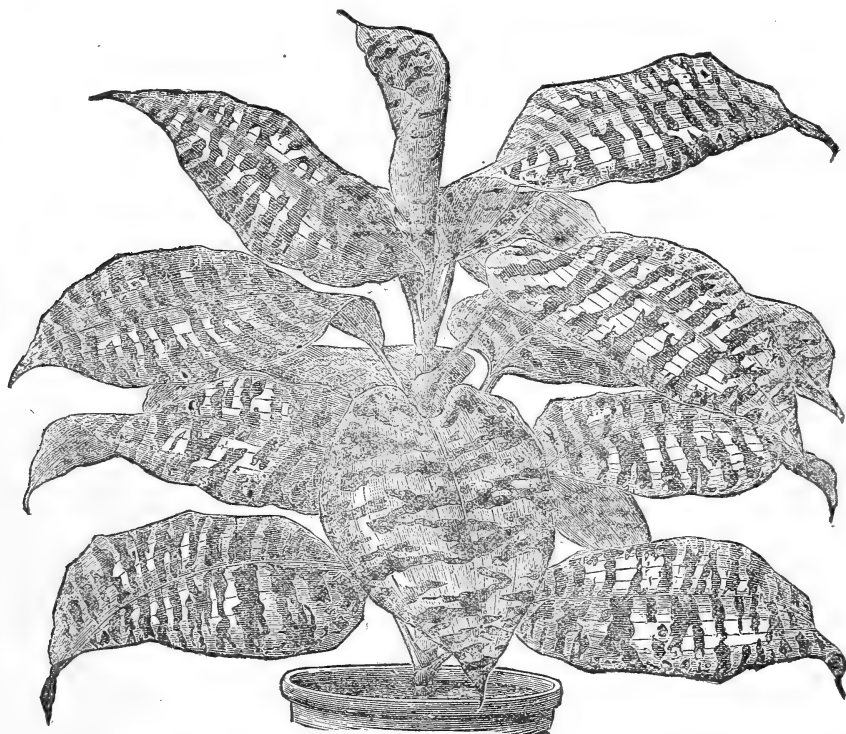

A plant of great beauty, remarkable for the lustre of its coloring. The stem is faintly mottled with dark and light green. The leaves have a thick ivory-white midrib and the ground color is of a rich deep velvety bottle-green, with a resplendent lustrous surface, freely marked with whitish striated blotches, which stand out in striking contrast with the dark green ground color. \$2.00 each.

***DIEFFENBACHIA ILLUSTRIS.**

A stout-habited stove plant of noble character, having erect stems, which bear bold and finely marked leaves. The blade is large, oblong-ovate, distinctly cordate at the base, marked all over with irregular blotches of yellowish green, and with a tendency to become yellow along the course of the principal ribs. \$1.50 each.

***DRACENA GOLDIEANA.**

One of the most magnificent ornamental foliaged plants ever introduced, and altogether unique in character and aspect. It is a native of Western Tropical Africa. The plant is of erect habit, and the stems are closely set with stalked spreading leaves, the petioles of which are of a grayish color, terete with a narrow furrow along the upper side, the base being dilated and sheathing the stem. The blade of the leaf is cordate-ovate acuminate, with a yellowish green costa, and banded with dark green and silver gray in alternate straight or furcate bands; the colors being about equally distributed. The back of the unrolled leaves is a pale reddish purple or wine color, and the stem where visible at the upper joints is of similar hue, the lower parts becoming green. It is without doubt, one of the finest of all stove plants and indispensable in all first class collections. \$2.50 to \$5.00.

DRACENA GOLDIEANA.

***CURMERIA WALLISII.**

A stove plant, very ornamental in character. The leaves are spreading and marked with very irregular dark green maculations, some running out from the green costa and others situated near the edge. The intermediate spaces are furnished with broadish patches of very pale yellowish green, which in the more matured leaves becomes a greenish gray. The colors are about equally dispersed, though the marking is very irregular, both as to the size and form of the blotches. \$1.50.

***SENECIO SPECIOSUS.**

The exceedingly bright and pretty magenta colored flowers of this plant make it very attractive; it is a half hardy perennial introduced from South Africa, and is exceedingly floriferous, so much so that in a cool greenhouse, its cheerful blossoms are successionally produced throughout the year; they are each about one and a half inches in diameter and are produced in large branching corymbose spikes. \$1.00.

***PEPEROMA PROSTRATA.**

A very ornamental basket plant, with slender creeping stems and alternate round variegated leaves. 50 cents.

HOYA GLOBULOSA.

"We can confidently recommend it as a most useful and valuable plant, blooming profusely and thriving well under the same treatment as other Hoyas. The flowers are of a bright straw color, the coronal protuberances white, the interstices of a shining brownish pink, forming a very pleasant contrast; the trusses large and freely produced, and the leaves of a shining green color, with dark green veins."—*Floral Magazine*. 75 cents.

BURBIDGEA NITIDA.

"This beautiful plant is the type of an entirely new genus, with the habit of *Hedychium*. It is a native of Borneo. It produces ten to thirty slender flowering stems, each bearing a panicle of 12 to 20 flowers each. The leaves are of a lively glossy green on both surfaces, and serve to set off the rich orange scarlet colors of the flowers. Its flowers, of a rich orange hue, render it a very striking stove plant." 75 cents.

HIBISCUS ROSA-SINENSIS ZEBRINUS.

A very distinct and handsome variety with double flowers, which are beautifully flaked and striped; the individual blossoms are about $3\frac{1}{2}$ inches in breadth, and $2\frac{1}{2}$ inches in depth; the five outer petals scarlet edged with creamy yellow in the lower part; at the apex, of a creamy yellow, irregularly striped and flaked with scarlet. 50 cents.

***HIBISCUS SCHIZOPETALUS.**

"One of the most remarkable varieties of *H. Rosa Sinensis*; the petals are deeply lacinated and fringed, as are the petals of *Mignonette*, *Clarkia*, &c. Its drooping flowers with reflected orange red, and lacinated petals render this plant not only a curiosity, but highly valuable as a decorative plant. A most singular and elegant plant."—*Garden*. 50 cents.

CRASSULA JASMINEA.

A very valuable and handsome plant, flowers white, resembling a *Bouvardia*, very fragrant. 50 cents.

ARDISIA OLIVERI.

"*Ardisia Oliveri* is a stove shrub of remarkably striking appearance, with recurved foliage and large globular heads of flowers like those of an *Ixora*, but of pink color. The plant was introduced from Costa Rica by the late M. Endres."—*G. Chronicle*. 50 cents.

***GARDENIA GLOBOSA.**

A native of Natal, where it extends from the sea-coast to an elevation of 1,200 feet, is a free flowering shrub, having lanceolate glabrous leaves. The large white funnel-shaped fragrant flowers are terminal, the tube broad, an inch long, hairy at the mouth, and with the spreading limb an inch and a half across; they are succeeded by globose fruits, as large as a walnut. \$1.00.

BIGNONIA MAGNIFICA.

A free growing and extremely floriferous stove plant, of scandent habit. The flowers, which are produced in large branching panicles, are of great size (about $3\frac{1}{2}$ inches across), and of exceedingly attractive color, ranging from delicate mauve to rich deep purplish crimson, relieved by a conspicuous throat of light primrose color. 75 cents.

***PHILODENDRON CARDERI.**

The leaves are cordate, broadish, of a dark shaded bottle green, with a satiny lustre, the principal ribs being marked out by bright green lines of glaucous or metallic hue; at the back the leaves are of a shaded wine purple, the course of the veins being marked by broad green lines. The glossy shaded satiny surface of the leaves imparts to them a wondrous degree of beauty. 75 cents.

ASPARAGUS—New Species.

Florists will find in these new *Asparagus* with their delicately beautiful feathery growths, plants admirably adapted for floral work.

- Each.
- **Plumosus*. An elegant evergreen climber with slender stems, smooth and numerous spreading branches; the white flowers are produced from the tips of the branchlets. It is an exceedingly handsome ornamental plant for the greenhouse or conservatory, and its pretty feathery growths are extremely useful for cutting for decoration. This is the finest species for florists, much more valuable than the dwarf variety...\$1 50
- **Virgatus*. Of shrubby habit, elegant and feathery. Rootstock emitting several stems, the upper part of which branch in a corymbose manner; branches sub-erect, again twice branched: a feathery graceful plant..... 1 00

***GLONERIA (PSYCHOTRIA) JASMINIFLORA.**

A fine evergreen stove shrub, of erect branched habit and terminal roundish corymbose panicles of long tubed white flowers with a four-parted limb, and freely produced; a beautiful plant. \$1.00.

ALPINIA ALBO-LINEATA.

A very striking and beautifully variegated plant, 3 to 4 feet high when fully developed. The leaves are 9 to 12 inches long, elliptic-lanceolate, pale green, marked divergently with broad bands of white and pale green. This is a grand addition to our ornamental plants, and makes a fine contrast intermixed with other foliage plants. 40 cents.

GRAPTOPHYLLUM NORTONII.

"The leaves are of ovate-oblong form, about 6 inches long and 2½ inches broad, and deep glossy green. The mid-ribs are at first light rose, and have on one or both sides a central blotch of light yellow. As the leaves approach maturity the mid-ribs deepen to crimson and the blotches become suffused with rose." 30 cents.

ARTOCARPUS CANNONI.

A tropical plant of exceedingly ornamental foliage of a rich bronzy-crimson tinted with purple above, beneath of a vinous red, about 1 foot long and 7 inches broad; very variable. 50 cents.

***PANAX LACINIATUM.**

"An elegant and very distinct plant. The leaves are tinted and indistinctly marked with pale olive brown, and form a rather complicated mass of narrow segments; they are bipinnate, nearly as broad as long, and have a drooping contour; and the pinnules or segments are very variable in size and form, presenting the appearance of a complex head of foliage." 40 cents.

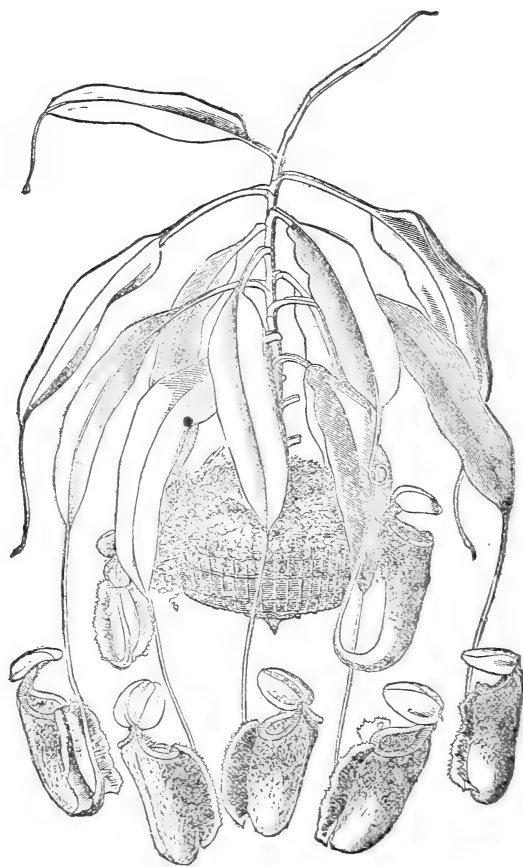

CLIDAMIA VITTATA.

"A splendid foliage plant, having large green leaves with a light band down centre of the leaf, of easy culture and rapid growth. 40 cents.

NEPENTHES, PITCHER PLANT.

- Each.
- **Gracilis Major*. This is a plant of free growth and somewhat compact habit; its pitchers are produced very abundantly; the ground color is dark green, over which is a profusion of dark reddish-brown spots.....\$0 75 to 2 50
- **Phyllamphora*. This plant is of very free growth, producing in great profusion moderate sized pitchers of a bright green.\$0 75 to 2 50
- **Lævis*. Of very free growth, producing its pitchers freely of moderate size, of a bright green, shaded with reddish brown.\$0 75 to 2 50
- **Courtii*. A hybrid pitcher plant of exceptional merit. The plant, although free growing, is dwarf in habit. The leaves are coriaceous, and margined with hairs. The pitchers, which are freely produced, are flask-like, deep green in color, densely spotted or clouded with deep crimson, and attain a length of from six to eight inches. The membranous texture of the pitcher is remarkably firm and durable....\$2 50 to 5 00

- | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| | Each. |
| * <i>Hookerii</i> . A magnificent species, of robust habit; the leaves are long and broad supporting fine large pitchers upwards of four inches in length and two inches in diameter. The ground color is dark green, which is profusely streaked and blotched with dark red..... | \$2 00 to 5 00 |
| * <i>Rafflesiana</i> . Of robust growth, producing very large pitchers of great beauty, which measure from six to twelve inches in length; ground color dark green, mottled and blotched with red. Its handsome pitchers render it a general favorite..... | 2 50 |
| * <i>Sedeni</i> . The pitchers are produced freely even on very small plants; they are of medium size, oblong, dilated at the base, narrowed above the centre; and slightly expanded towards the top, and provided with two ciliolate wings; in color a dark green, densely covered with dark red spots. It is of dwarf and very neat habit. \$2 to | 5 00 |

PITCHER PLANT.

- | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| * <i>Hybrida Maculata</i> . It is of free growth, and produces its pitchers in great profusion; they are cylindric, slightly contracted above the middle and winged, the wings being ciliated; they are stained with purplish red spots of a peculiar tint, by which this variety may be recognized..... | 2 50 |
| * <i>Morganæ</i> . It is of dwarf neat habit, furnished with smooth, pale green leaves with red midribs. The pitchers are flask-shaped, with two rather narrow ciliolate wings, when fully grown are from six to eight inches in length. On the younger plants the pitchers are beautifully mottled with bright red and pale green; in the older plants they are almost self-colored and blood red. The lid is always pale green, offering a remarkable contrast to the richly colored ascidium or urn..... | 5 00 |

	Each.
* <i>Dominii</i> . A very beautiful pitcher plant, producing its large pitchers freely; color green, marbled and spotted reddish brown.....	2 50
* <i>Nepenthes Stewartii</i> . A hybrid between <i>N. phyllamphora</i> and <i>N. Hookeriana</i> ; pitchers intermediate in size between the parents, with rather broad ciliate wings in front and a prominent rib behind, deep green densely spotted and clouded with crimson,.....	2 50

*NEW CROTONS.

* <i>Magnificum</i> , (new) This variety is one of the best and most distinct. The leaves are long, average size, of a clear green shaded with bands of bright yellow and purple. The old leaves are entirely variegated with this color, whereas the young ones are almost entirely yellow. This will be one of the best varieties and one which gives the greatest contrast.....	2 50
* <i>Insignis</i> . A fine form of great beauty, with long narrow foliage. The leaves are marked with three striking and effective colors; they are linear-oblong in form, the color deep green, with the midrib and veins beautifully picked out with golden yellow, the margins and midrib, rosy crimson. In the older leaves the markings run in from the edge, and become suffused over the central bar, so that the colors become nearly equally balanced, in which state it is very handsome. One of the most beautiful varieties yet introduced.....	1 50
* <i>Baron James de Rothschild</i> . One of the finest of the large-leaved section, with yellow midrib, changing to a rich violet crimson; very effective and showy.....	2 50
* <i>Cronstadtii</i> . "A remarkable variety, in which the curious twistings and interruptions frequently manifested in the leaves of this race of plants are developed in a very striking manner. In color, a deep glossy green variegated with bright golden yellow. They are twisted, curled, and crisped into a great variety of forms. The depth and richness of its coloration together with its curiously distorted leaves renders this <i>Croton</i> a most distinct and interesting decorative plant." "A handsome plant with long narrow twisted leaves, richly colored."— <i>Gardener's Chronicle</i>	2 00
* <i>Carrierii</i> . A superb <i>Croton</i> , with large finely variegated foliage.....	2 00
* <i>Stewartii</i> . One of the most distinct <i>Crotons</i> ever offered of the broad leaved kinds; the habit is dwarf and bushy, and this variety colors when in a very small state. The leaves dark green, irregularly banded and margined with rich orange. The mid-rib and petioles are bright magenta, which produces a striking contrast to the carmine markings on the remaining portion of the leaf.....	2 00
<i>Hawkeri</i> . "It is of dwarf and compact habit. The coloring of the plant is very effective. The middle and lower portions of the leaves, together with the footstalks, are light creamy yellow which spread over the greater part of the leaves, the extremities with the edges of the leaves only are bright green.....50 cts. to	1 00
<i>Lanceifolius</i> . The leaf is dark green, the mid-rib, margin and primary veins pale yellow, which as the plant attains its character, becomes reticulated with bright rosy pink; the whole of the leaf presenting a very charming mosaic appearance.....50 cts. to	1 00
<i>Nevillæ</i> . When first expanded their mid-ribs are bright golden yellow, and the blades light olive green barred and marked with yellow. In the mature leaves, the yellow is changed to crimson shaded with orange, and the green much deepened, the whole being suffused with a metallic hue peculiar to this plant.....50 cts. to	1 00
<i>Evansianus</i> . The newest formed leaves are light olive green with mid-rib and veins of golden yellow, and the inter-spaces spotted with the same color. As the leaves become older, the green deepens and changes to a bright bronzy crimson, and the golden yellow of the mid-ribs, veins and spots becomes a rich orange scarlet.....50 cents to	1 00
<i>Hanburyanus</i> . "The leaves are about 15 inches in length and 2½ inches in breadth. The ground color, a bright olive green in several shades is, in many leaves, quite subordinate to the rich golden yellow and rosy crimson that suffuse the whole plant. All the leaves are beautifully marbled and blotched with these tints."...50 cents to	1 00
<i>Mortii</i> . "The leaves are of a very dark green color, being marked out by a band of golden yellow a quarter of an inch wide, and all the principal veins also being broadly marked with yellow; these latter markings meet near the edge, where there is a variegation of broken reticulated golden lines.".....50 cents to	1 00
<i>Williamsii</i> . This is one of the red-tinted series, very strongly flushed with violet crimson. The leaf has a central band and costa of yellow, from which the pinnate veins of the same color branch out on either side. These veins all change to deep crimson and the whole plant becomes flushed with a glowing tint of crimson, shaded with violet, which renders it extremely conspicuous.....50 cents to	1 00

Each.

Princess of Wales, (Glorious). This is one of the long leaved drooping forms of Croton. The leaves are from 1½ to 2 feet in length, sometimes plane and sometimes strongly undulated. The ground color is green, and the variegation creamy-yellow, very variable in character. In some there is a creamy-yellow mid-rib, with a band on each side; in others, the mid-rib is bright green.....	1 00
Macarthurii. The color is constant, but the markings on the different leaves are as varied as the forms assumed by the leaves themselves. The habit is <i>excellent</i> , and the variegation, fully one-half of which is yellow, is very striking. The mid-ribs are yellow, and the bright green ground of the blades are spotted, blotched, flaked, and barred in infinite variety.....	50 cents to 1 00
Variabilis. (Falcatus.) A robust variety. It has long leaves, marbled and blotched with different shades of yellow, orange and crimson. The leaves both in color and shape, are very variable; some are straight, others recurved, falcate or often distorted, their surface being either smooth or undulated.....	50 cents to 1 00
Fasciatus, (Hendersonii.) The ground color is a very deep green, the principal veins being marked by bright yellow lines, interlacing near the edge, where, and especially near the point, the surface is chiefly yellow, with irregular small green spots. The mid-rib forms a brownish yellow band.....	50 cents to 1 00
Queen Victoria. The ground color of the leaf is rich golden yellow, beautifully mottled with green; the mid-rib and the primary veins are of a rich magenta color, changing with age to a vivid crimson; the margin of the leaf is unevenly banded with carmine, often extending as far as the mid-rib.....	50 cents to 1 00
Challenger, (Imperator.) The variegation is very striking. The mid-ribs are at first creamy white, which gradually becomes suffused with red, finally deepening to bright crimson carmine. The ground color is light green, but much blotched and streaked with light yellow that takes a rosy tint as the mid-rib deepens in color.....	50 cents to 1 00

Extra size plants of the above Crotons can be supplied at extra prices.

BERTOLONIAS.

*Superbissima. "Jewel plant, bronzy crimson, foliage exquisitely spotted with white."	
*Van Houttei. Has the leaves of a rich olive velvet ground color, traversed broadwise by large bars of beautiful magenta red, and dotted all over with thousands of spots of the same color. This description will however, give only a slight idea of the real beauty of this plant.....	0 50
*Rodeckii. Ground color bronze, speckled with white spots, nerves fine green, edged with creamy white; a perfect gem.....	1 00
Guttata. Leaves dark green, profusely dotted with rose colored spots, a charming plant.....	0 50

*GOODYERAS.

Dawsoniana. A very beautiful plant. The leaves are blackish green on the upper side, and very glossy, with lines of beautiful golden purple transversing from the base to the apex; flowers white.....	2 00
Discolor. A beautiful plant, grows about six inches high; foliage a beautiful dark velvety color, with white markings through its entire length, flowers white.....	0 50

LAURESTINUS.—Viburnum Tinus.

*Splendens. A variety of Laurestinus, with magnificent large flowers. A good grower and free bloomer.....	1 00
Pure White. The flowers of this variety are pure white.....	1 00

PHYLLANTHUS ROSEA-PICTUM.

This variegation is exceedingly rich and varied, no two colored leaves showing precisely the same markings with like tints. Many of the leaves are bright crimson, which is also the color of the stem during the early stage of growth; some are a light cream color, tinged with a delicate blush, others again have a dark bronzy hue, shaded with crimson; some are dark green with blotches and spots of rose, while others are tri-colored, white with different shades of rose and green.....	0 40
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------

***HIBISCUS CARDIOPHYLLUS, (New.)**

I have the pleasure of offering this extremely beautiful Hibiscus, which I have received from southwestern Texas. In habit it resembles an Abutilon. My plants were bedded out the past summer and succeeded admirably, flowering profusely during the season. The flowers are bright scarlet, over two inches across, which makes it a very striking plant. A sterling novelty..... 0 50

Each.

DICHORISANDRAS.

*Mosaica. An extremely handsome plant, of dwarf habit; leaves large, ground color of the upper side rich deep shining green, traversed with an innumerable quantity of parallel transverse fine white lines; the upper side is of a uniform deep purple. It also produces lovely rich azure flowers 1 00

Thyrsoflora. A very fine species; flowers in a thyse of rich azure; *magnificent species*, 0 75

Undata. Very different from D. Mosaica, producing large ovate leaves, very dark green in color; the mid-rib and veins are of a lighter green, which gives the leaves a striped or marbled appearance..... 0 50

NEW FERNS.***ADIANTUM WEIGANDII.**

"A very pretty and novel Maiden Hair Fern, neat in habit, having the compact bunchy style of growth of A. Decorum. We regard this as a very distinct Fern, one of a pleasing character and likely to take a high place for decorative purposes."..... 1 50

***ADIANTUM BAUSEL.**

A hybrid variety between A. Trapeziforme and A. Decorum; in size intermediate between the two. Its peculiarity is the drooping position of the pinnules, which are deflexed sideways from the plane of the rachis; in the form of its pinnules it also differs from any other known Fern..... 1 50

***ADIANTUM WILLIAMSII. —The New Golden Maiden Hair.**

This splendid novelty is destined to become a general favorite, and for cutting purposes its value cannot be over-estimated. It succeeds well in a green-house temperature. It is in every respect quite as free and hardy as A. Cuneatum, and will make a fine exhibition plant. "It is a native of Peru, where it is found on the mountains growing at an elevation of 12,000 feet."..... 1 50

***ADIANTUM DOLABRIFORME.**

A beautiful evergreen Adiantum; fronds elongated, pinnate proliferous pinnules dolabriform. An exceedingly graceful fern..... 1 50

ADIANTUM LUDDERMANNIANUM.

A remarkable variety. The peculiarity consists in the pinnules being crested or agglomerated at the extremities of the stipes and their rachides; they are also much crisped and curled. Fronds erect from 8 to 12 inch high; pinnules on short petioles, generally fan shaped, and deep green color..... 1 00

***ADIANTUM SPECIOSUM.**

A very elegant Fern, of semi-scandent habit, with large tripinnate fronds, which frequently attain a length of 36 inches with a width of 21 inches, the pinnules of which are $\frac{3}{4}$ to 1 inch across the lobes cuneated and soriferous at the apex. The whole of the pinnules are covered with dense short hairs, giving the foliage a woolly feeling when touched..... 1 00

ASPLENIUM NOBILIS.

This is a graceful Fern with light, lace like pinnæ and arched fronds, which somewhat resemble those of *A. viviparum* or *A. lineatum* Each. 1 00

***DAVALLIA ELEGANS POLYDACTYLA.**

"The *Davallia elegans* is well known as one of our best evergreen Stove Ferns." "In its general aspect, the new variety resembles its typical form, but instead of the apex of the frond itself, and the apices of the pinnæ and pinnules coming out to and terminating in a narrow point, this point becomes dilated and split down into several divisions, each of which is again multifidly divided, so that the apices all become crested. The whole contour of the plant is extremely ornamental," 1 50

***DAVALLIA MARIESII.**

An evergreen Japanese Fern, of dwarf habit and free growth. As a basket Fern for the conservatory and greenhouse *D. Mariesii* is one of the best. Its flexuous rhizome spreads freely in all directions, and its numerous fronds thence present an enduring globose mass of verdure. Grown in a pan, this pretty Fern is also very effective and distinct..... 0 75

***DAVALLIA FIJIENSIS MAJOR.**

An elegant Fern. It has slender stipes and gracefully arching fronds; the pinnules are finely and beautifully cut, and of a bright green color. Its graceful habit and cheerful color render it a valuable addition to our lists of Ferns, requiring the temperature of the intermediate stove or warm greenhouse..... 0 75

GLEICHENIAS.

**Dichotoma*. A very handsome species, makes a nice specimen plant..... 2 50

**Flabellata*. A distinct and fine species, makes a strikingly beautiful plant..... 2 50

**Mendelii*. This is one of the most distinct and free growing kinds. It makes a handsome exhibition plant, and will also be found very useful for decorative purposes. It is a very compact growing species, requiring cool treatment. The pinnæ are of a thick texture, and very glaucous on the under side. Native of New Zealand....

**Rupestris Glaucescens*. A very distinct form of *G. Rupestris*; the fronds are of a much thicker texture and very glaucous on the surface, changing with age to a bright glaucous green. A very effective variety.....

**Semivestita*. A very pretty compact free growing species, makes a handsome specimen plant..... 2 00

**Speluncæ*. A distinct and beautiful species, makes a charming specimen plant.....

***LASTREA RICHARDSII MULTIFIDA.**

"The plant has fronds 3 feet high, including the stipes, which are a foot long, numerously developed from a short decumbent caudex. The pinnæ are upwards of 4 inches long in the broadest part, and terminate in a densely fingered tuft of about fifty long narrow acute divisions, the apex of the frond dividing into two or more branches consisting of about seventy of these small finger-like segments. Its bright green color, its small pinnules, and the broad crested apices with their numerous narrow divisions, give this plant a singularly elegant character, and mark it out as a very ornamental, useful Fern for the decoration of the hothouse,"

***LOMARIA DISCOLOR BIPINNATIFIDA.**

One of the most pleasing and attractive of *Lomarias*, from its elegant habit and its beautifully divided fronds, which have characteristics quite distinct from those of any other species. The fronds are numerous, and spring from the crown of a short robust stem, arching, and from 18 to 24 inches in length; the pinnæ are very close set, so as to overlap each other, and are cut to the rib, the outer sub-divisions being slightly crisped..... 1 00

NEPHROLEPIS DUFFI.

Each.

A beautiful and distinct Fern. The fronds are densely crowded, from 15 to 18 inches long, pinnate, and much crested. The pinnæ, which are small, are produced in pairs, one overlaying the other, those above being largest. The compact elegant habit of this Fern and its bright attractive color, render it a most desirable acquisition.....30 cts. to 0 50

MICROLEPIA HIRTA CRISTATA.

A very beautiful new crested Fern from the South Sea Islands. Its habit is exceedingly graceful; it is of free growth, admirably adapted for specimens, baskets, &c.....30 cts. to 0 50

ARALIAS.

- Filicifolia*. A plant of the first rank, graceful in habit, and well furnished with foliage, altogether one of the most valuable decorative plants. The stem and leaf stocks are purplish, marked with oblong white spots; the leaf stocks are sheathing at the base, expanding into a broad leafy limb..... 0 50
- **Elegantissima*. A beautiful plant with straight erect stem, furnished at short intervals with digitate leaves on long foot stalks, mottled with white on a dark green ground; the leaflets, from seven to ten in number, are filiform, deeply and unequally serrate and gracefully pendulous. The color of the foliage is a deep green shaded with brown..... 1 00
- **Veitchii*. A very elegant plant from the South Sea Islands, producing very narrow digitate leaves, considerably undulated; upper surface deep green; under, dark crimson. One of the most beautiful decorative plants in cultivation..... 1 00
- Guilfoylei*. The leaves are made up from three to seven stalked oblong-elliptic bluntish leaflets; these leaflets vary in size from two to three inches long, and evenly margined with creamy white, the surface being, in addition, occasionally splashed with gray.....25 cts. to 0 50
- Reticulata*. A very distinct species of free growth; a fine decorative plant..... 0 50
- **Amboinense*, (*Sciadophyllum pulchrum*). A very ornamental plant with large, bright green shining foliage. A grand decorative plant..... 1 50
- Sieboldii*.....25 cts. to 0 50

ANTHURIUMS.

- **Crystallinum*. The emerald green refulgent leaves are spotted all over with a brighter shade, and bordered by a broad silvery or rather crystal band, which surrounds the intramarginal and four secondary nerves. These dazzling white zones are so distinct and regular that they resemble a border of incrustated silver around the sections of the blade of the leaf.....\$1 00 to 2 00
- **Regale*. This is a superb ornamental foliage plant. There are several varieties of this plant. The one now offered is the finest; the leaves are heart-shaped, much lengthened out towards the apex, and rich dark velvety green in centre.....\$1 00 to 2 00
- Magnificum*. The foliage of this plant is truly magnificent, a noble species, with large velvety-green leaves and broad silver veins.....50 cts. to 1 00
- **Scherzerianum*. One of the most striking and beautiful dwarf-flowering stove plants of recent introduction, producing beautiful brilliant scarlet flowers, each of which remains from two to three months in bloom. This charming and novel plant is easy of culture, and a most abundant bloomer.....\$1 00 to 2 00
- **Scherzerianum Williamsii*. In habit and growth it is in all respects like the normal state, but its spathe and spadix differ entirely; in the variety now offered the spathe is pure ivory white, and the spadix a pale lemon color..... 2 00
- Floribundum*. A very pretty species, of easy culture. Flowers pure white, freely produced..... 1 00

ALOCACIAS.

Macrorrhiza Variegata. Leaves nearly as large as *Colocasia Esculentum*, broadly splashed with white. Some leaves nearly all white. Its easy growth, combined with the rich variegation, makes it a very telling subject for exhibition..... 50 cts. to 1 00

Each.

*Sedeni. "A very beautiful Hybrid, between A. Metallica and A. Lowii. The form of the leaf is perfectly intermediate between the two parents, whilst the coloring is a very striking and pleasing combination of the metallic hue of one parent, with the dark green and prominent white veins of the other. A fine foliage plant.....	1 00
*Lowii. A very beautiful plant with large shining foliage. Forms a fine specimen....	1 50
Veitchii. The foliage of this plant is exceedingly distinct. A grand show plant..50 cts. to	1 00
*Zebrina. Fine yellow leaf-stalk, with distinct black marks, rendering it a very conspicuous plant. It makes a grand specimen.....	1 00
*Metallica. A plant possessed of great beauty. Large thick shell-like leaves of a bronzy copper color. It is distinct and admirable in every respect.....	.75 cts. to 1 50
Illustris, (Gibsonii.) The leaf-stalks are erect, and have a brownish purple tint, color a rich green, marked between the principal veins by broad patches of blackish olive, forming a striking contrast with the brighter green portions of the leaf surface....	0 25
Jenningsii. A delicate green, over which, between the principal veins, are laid heavy blotches of black, which are remarkably precise in outline and arrangement.....	0 25

PHYGELIUS CAPENSIS.

This pretty Penstemon-like plant I have found quite hardy, it having passed several winters out doors without protection. It grows from 3 to 4 feet high and has numerous semi-herbaceous stems, each terminated by a long branching raceme of flowers which are brilliant scarlet. It is a most persistent flowerer, beginning in May or June and continuing up to frost.....	0 50
"This is one of the most ornamental hardy plants in cultivation."— <i>Garden</i> .	

CLITTORIAS.

Cœrulea. A climbing plant of moderate growth, which flowers freely during winter; flowers in clusters of deep mazarine blue, pea-shaped flowers.....	0 30
Alba. A pretty white variety.....	0 50

SALVIA GREGGII.

A pretty new species which I have introduced from Texas. This has long spikes of purple flowers; a continuous bloomer, very compact habit, and nearly or quite hardy in this latitude.....	0 30
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------

ANASACANTHUS WRIGHTII.—(New.)

Another new plant which I have received from the same latitude in Texas as the Salvia. A shrub attains a height of four to five feet, bushy, flowers orange, a continuous bloomer, nearly or quite hardy.....	0 50
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------

SONERILA HENDERSONII.

A charmingly variegated plant, of dwarf habit. Its leaves are most elegantly studded over with silvery white pearl, or tiger-like spots upon a rich dark olive green ground. Flowers rosy lilac. This beautiful plant proves far easier in its management than any of the former species of Sonerila. We have found this plant a profuse bloomer during the winter. Florists should grow it largely.....	0 30
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------

PHYLLOTENIUM LINDENI.

A fine Aroid discovered by Mr. G. Wallis, in New Grenada, and sent by him to M. Linden, of Ghent. The plant has robust foliage, which is very persistent; the leaves are of a light glossy green, marked by bands of white, which cross the blade in almost parallel lines from a prominent mid-rib of the same color.....	1 00
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------

SENECIO PULCHER.—(Beautiful Groundsel.)

A half hardy perennial, a pretty plant, with rosy-crimson flowers, very showy, flowers late in summer. <i>Figured in American Agriculturist</i>	0 30
-------------------------------------------------------------------------------------------------------------------------------------------------------	------

VERONICAS.—(New.)

EacL.

- Hendersonii*. A new species introduced from Japan, growth about two feet high, robust habit, foliage broad, of a deep rich green, dense and abundantly produced. The flowers are very large, rich deep violet blue, produced in large cluster heads composed of many spikes, the finest of the herbaceous section of *Veronicas* 0 50
- Elegans Variegata*. A very beautiful hardy herbaceous plant, with elegantly variegated foliage, long spikes of blue flowers 0 50

DRACOCEPHALUM.—(New.)

- Ruyschiana*—Var. *Japonicum*. "It is a hardy herbaceous perennial. 18 to 24 inches in height, branching from the base. The violet blue flowers, $1\frac{1}{2}$ inch in length, are in terminal verticillasters, intermixed with numerous obovate acuminate leafy bracts, 0 50

CANNA EHEMANNI.

- The most distinct of all *Cannas* on account of the large oval *Musa-Ensete*-like soft green leaves which place it foremost among decorative foliage plants. Its most striking feature is the splendid carmine red flowers produced on flower stems of great length that unfold about 12 flowers to each of the smaller branches. These flowers are very large and are used to advantage in bouquet-making, or producing splendid effects on the lawn. See plate in "*Garden*." 0 50

***CANNA NOVTONNI.**

- This very distinct and fine *Canna* is closely allied to the last, like it the foliage is large and fine; the flowers are also very large and showy of a bright scarlet, a grand *Canna*, 0 50

TECOMA STANS.

- A very fine plant from southwestern Texas, has succeeded finely bedded out with us during summer; the flowers are a rich yellow, and very floriferous 0 75

CAMPYLOBOTRYS GHIESBRIGHTI VARIEGATA.

- A pretty variegated variety of this beautiful plant 0 30

DORYANTHES PALMERI.—Queen's Land Lily.

- The flower-scape rises from the centre eight feet in length, forming densely clothed pyramidal compound racemes, much like those seen in various *Yucca* species. Flowers numerous, approaching in size and form to those of the well known *Vallota purpurea*, from three to four inches in diameter, of a rich pæony crimson hue, with a white centre. Each blossom is accompanied with leaf bracts of an equally rich color as the flower \$1 00

TABERNEMONTANA CAMASSA.

(*Growers of Flowers for Market should Cultivate a House of this Plant alone.*)

- A very desirable shrub, with racemes of double white flowers of *Gardenia*-like outline and fragrance, which are produced on the point of every shoot. The usual temperature of a hot-house with less humidity, will produce blooms more freely and longer in succession. The petals of the flowers are lighter and more elegantly arranged than the *Gardenia*, and not quite so large; small plants in three inch pots will produce flowers freely 30 cts. to 0 50

APHELANDRA FASCINATOR.

- A very fine species, with very ornamental foliage as well as magnificent flowers; the leaves are rich dark green, beautifully banded with silvery white, and underneath of an uniform purplish velvet; the spikes of bloom are very large and of a dazzling vermilion color 0 40

***YELLOW CALLA.—(Calla Hastata.)**

Each.

An unique plant: its strong robust growth and richly colored lemon-yellow flowers mark it at once with distinctness as a plant for general purposes; the habit is deciduous, requiring a period of rest in mid-winter..... 0 75

POSOQUERIA LONGIFOLIA.

This plant forms an elegant bush, and is very free flowering, Leaves large, somewhat ovate, coriaceous and shining green; flowers tubular, pure white, produced in large corymbs of a dozen and more, waxy like, from 3 to 4 inches long, and deliciously fragrant..... 0 50

PAULINIA THALICTRIFOLIA.

A very beautiful plant. It is of a slender growth, producing very freely its beautifully cut leaves, which resemble the fronds of a highly divided Maiden Hair Fern. The matured leaves are of a striking bright green, the young shoots and foliage being of a beautiful rosy tint.....25 cts. to 0 50

MACKAYA BELLA.

This most beautiful plant is a native of Natal. The flowers have a pale lilac corolla, nearly two inches long, the throat ornamented with most delicately penciled reticulated purple veins, tubular below, campanulate. The plant is very floriferous..... 0 30

GYNURA AURANTIACA.

The stem and leaves are clothed throughout their entire length with a thick covering of hairs, soft to the touch, and of a beautiful deep violet color, which gives an appearance of the richest velvet to the plant. This is more especially the case with young leaves, and when combined with the brilliant orange of the flowers, the aspect of the plant is truly superb..... 0 25

ERIOCNEMA MARMOREUM.

Plant dwarf, with habit of some of the Begonias, leaves green, striped with bands of white; a beautiful plant..... 0 50

***BRIDGESIA SPICATA.**

An evergreen greenhouse creeping shrub, adhering to walls similar to Ivy; beautiful bloomer..... 0 75

***CYANOPHYLLUMS.**

*Magnificum. A grand specimen plant, having large beautiful foliage.....75 cts. to 1 00

*Spectandum. A grand plant with large velvety leaves, and whitish ribs which grow to an immense size and are very attractive. A fine plant for flower shows, fairs, &c., as it makes a beautiful specimen.....50 cts. to 1 50

*Assamicum. A very beautiful foliage plant, large fine foliage.....50 cts. to 1 50

***SPHEROGYNE LATIFOLIA.**

A plant with the grandest possible foliage, large, broad and flat, deep green on top, under side cinnamon brown; very hairy leaves and stems; a grand specimen plant. One of the most attractive for exhibition.....\$1 00 to 2 00

NEW SALVIAS.

M. Issanchon, (new.) Flowers pure white, very fine..... 0 25

Splendens Bruantii. A dwarf-growing variety, producing fine large flowers of a velvety-red color..... 0 15

	Each.
Splendens Hoveyi, (Ianthina.) Habit and general character of S. Splendens, but with dark blue flowers.....	0 15
Splendens, "Mrs. Stevens." Flowers a deep crimson.....	0 15
Nigrescens. Flowers of a blackish violet and lavender colored calyx	0 15
Bethelii, (Involucrata.) Bright rosy pink tipped with white, extra fine.....	0 15
Rutilans, (new.) Magenta flowers, fine	0 15
Cacalifolium. Flowers rich blue.....	0 15

NEW ABUTILONS.

Chrysostephanum, (new.) (Couronne d'Or.) Compact habit, in the way of A. Darwinii, flowers sulphur-yellow, very fine.....	0 50
Comtesse de Grefflhe. (new.) A superb white flower.....	0 50
Chinois, (new.) Beautiful orange salmon, large, profuse bloomer.....	0 20
Modeste. (new.) Bright red, veined with crimson, fine.....	0 20
Ne Plus Ultra. (new.) Rosy crimson, veined light.....	0 20
Fire King. Very bright carmine, fine.....	0 20
Firedy, (new.) Compact habit; flowers brilliant red.....	0 30
G. Delaux. Violet carmine, new color, beautiful.....	0 20
La Candeur, (new.) A very beautiful pure white flower.....	0 20
Purity, (new.) Flowers of the purest white, extra.....	0 50
Royal Scarlet Flower, (new.) Very bright.....	0 50
Seraph, (new.) Pure white, a long tubular shaped flower, very fine.....	0 20
Sellowianum Marmoratum. The leaves of this beautiful variety are very large and ornamental; their color is a golden yellow, richly tessellated with green.....	0 20
Toison d'Or. Color deep bright yellow, a very fine variety.....	0 20

ALTERNANTHERA AUREA NANA.

This new variety is of as dwarf a habit as *A. Paronchoides* Major, color a beautiful golden yellow without a tinge of red.....\$1.50 per doz., 0 20

NEW EULALIAS.

Japonica Zebrina. The variegation in this lovely grass is across the leaf instead of longitudinally. It grows from 4 to 5 feet in height, is a most strikingly graceful plant. Its flower spikes are equally beautiful and valuable as <i>E. Japonica</i>	0 50
Japonica Variegata. Leaf long, variegated. The flower stems are from 3 to 4 feet high, very reed-like, and produce loose panicles of flowers; the panicles are hairy and erect until dried, when they become elegantly curled, closely resembling Ich-dien feathers.....	0 25

PAMPAS GRASSES.—*Gynerium Argenteum*.

Argenteum. The well-known Pampas Grass, with long graceful foliage, which gives forth in autumn its beautiful silvery plumes.....	0 25
*Album Variegata. White variegated Pampas Grass. This beautiful grass has all the grace and elegance of <i>G. Argenteum</i> , and flowering quite as freely; add to this its graceful foliage striped with silvery white.....	50 cts. to 1 00
*Aurea Variegata. Gold variegated Pampas Grass. Another beautiful variety, similar in its graceful habit to the last, but in this the foliage is striped with a deep yellow; a charming variety.....	50 cts. to 1 00
*Carmineum Rendatleri. This new <i>Gynerium</i> is a really majestic and very beautiful plant. The panicles, measuring more than two feet in length, are of a bright carmine rose color; if kept dry in winter, they gradually assume a light violet tint. The habit of this new <i>Gynerium</i> is magnificent.....	50 cts. to 1 00
*Elegans Niveo-vittatis. Another very elegant Pampas Grass, handsomely variegated.....	1 00
*Westerlingi Variegatum. A very beautiful variegated Grass.....	1 00
Monstrosum. Very robust in growth.....	1 00

NEW POINSETTIA.

Pulcherrima Plenissima. (new Double Poinsettia.) This magnificent plant is remarkable for its floral bracts, the size of the heads in which they are produced, and their marvellous brilliancy of color. The whole inflorescence is full and rosette-like, and of a most vivid and brilliant scarlet color.....	Each.
	25 cts. to 0 50
Pulcherrima Major. A great improvement on the old species, both in the size of the individual bracts, and also in the far larger heads, which are of a bright scarlet, tinted with violet cerise.....	25 cts. to 0 50
Rosea-Carminata. In this fine variety, the heads of bracts are larger, smooth, and of a brilliant rosy carmine.....	25 cts. to 0 50

DIEFFENBACHIA.

Nobilis. The leaves are of a deep rich green, marked over the central portion to within about an inch of the margin, with largish, angular, irregular and variously confluent white spots, which contrast strongly with the color of the margin and intervening portions. Altogether a strikingly handsome plant of its group.....	50 cts. to 1 00
Brasiliensis. A handsome variety, the leaves averaging eighteen inches in length, by eight or nine inches in width; the ground color of the leaf is deep green, and the whole surface is mottled with small blotches of greenish yellow and white. A beautiful plant.....	30 cts. to 0 50
Bausei. It is a stocky-growing broad-leaved variety, with yellowish green leaves, which are irregularly edged and blotched with dark green, and also spotted with white, the marking being particularly effective.....	30 cts. to 0 50
Bowmanii. Very large bright green leaves, blotched and marked with golden green; a grand specimen plant.....	30 cts. to 0 50
Weirii. It is of dwarf habit, the foliage of a bright green color, thickly blotched and spotted with pale yellow. This is one of the finest of the Dieffenbachias.....	30 cts. to 0 50
Baraquiniana. A fine vigorous plant with white stems, leaves green, spotted and blotched with pure white.....	30 cts. to 0 50
Picta. A very beautiful foliage plant, leaves a deep green, mottled with white; beautiful.....	25 cts. to 0 50
Eburnea. Distinct and very beautifully marked foliage.....	0 50

MARANTA.

*Lubersi. (new.) A very handsome species, foliage reticulated with yellow. Makes a handsome specimen plant.....	1 00
Massangeana. A very distinct dwarf species. The variegation consists of three distinct colors. The mid-rib veins and middle portions of the leaf are silvery white, faintly tinged with bluish green, then a broad band of blackish hue, the whole being surrounded by a belt of bright green, margined with a thin line of a lighter shade...	0 50
Illustis. A beautiful marked species, with leaves of a rich lustrous green, being a rival to M. Lindenii and M. Veitchii, assuming the habit of M. rosea picta whilst young. Towards maturity the tracery changes to a broader white one within the margin.....	0 50
Regalis. Very beautiful, with fine foliage distinctly and finely marked.....	0 50
Lindenii. Foliage very dark, with a golden feather along its centre. A fine species.....	30 cts. to 0 50
Makeyana. A very ornamental dwarf growing species; leaf-stalks slender reddish purple, blade of the leaf ovate, ground color olive green, beautifully and regularly blotched with creamy yellow, of a transparent character; on each side the midrib are oblong dark green blotches, whilst the under side is rosy red.....	30 cts. to 0 50
Tubispata. An elegant and very attractive species of erect habit of growth; leaves some 9 or 10 inches long, light green, ornamented on each side the midrib with oblong blotches of cinnamon brown.....	30 cts. to 0 50
Veitchii. The leaves of this grand plant are upwards of twelve inches in length; "the under surface of a rich purplish wine color, the upper of a deep, shining green, blotched with conspicuous patches along each side, of a yellowish green, almost verging on gray. The contrast is very marked, and the whole plant very beautiful,".....	50 cts. to 1 00

	Each.		
Porteanna. This is a vigorous growing species, with fine large foliage feathered with white.....	0 30		
Virginalis. Fine broad foliage, midrib has a broad band of white; a very fine plant....	0 50		
Van Den Heckeii. Leaves dark satin-like, embellished by a large central line, surrounded by a silver disc.	0 30		
Bicolor. Deep green marked with dark brown.....	0 30		
Princeps. This plant attains a height of from three to four feet, the blade of each leaf measuring upwards of a foot in length; centre dark metallic green, margined with light green.....	0 50

PANDANUS.—Screw Pine.

Javanica Variegata. This variegated Screw Pine is well known as one of the finest decorative plants; leaves green, with broad stripes of pure white, gracefully curved. Very beautiful.....	50 cts. to 1 00
Utilis. Screw Pine; very fine decorative plant, with recurved graceful foliage, 25 cts. to	1 00
Veitchii. This splendidly variegated Screw Pine is one of the most attractive plants. The leaves, which are of a light green color, beautifully marked with broad stripes and bands of pure white are most gracefully curved, which elegant habit of growth renders the plant extremely effective.....	50 cts. to 1 00
Graminiformis. This has narrow light green foliage, a pretty, graceful species.....	0 50

FICUS.—India Rubber Tree.

Elastica. India Rubber Plant. Fine large shining foliage; a fine decorative plant..	0 50
Macrocarpa. A free growing shrub, with smooth terete stems and thin coriaceous glossy ovate-oblong entire leaves, five to six inches long and three inches broad....	0 50
Macrophylla, (Artocarpus imperialis.) A robust vigorous grower with immense foliage.....	0 50
Parcelii. A splendid decorative plant with beautifully variegated foliage. The leaves, which are of large size, thin texture and coarsely serrated on the margins, are of a bright green color, profusely but irregularly blotched with creamy white and dark green.....	0 50
Australis. Foliage, a pretty ornamental plant.....	0 30
Lucida. Leaves bright green, shining.....	0 30

PHORMIUM.—New Zealand Flax.

*Atropurpureum. A very desirable species; habit the same as P. Tenax; leaves reddish purple. This makes a distinct decorative plant for the conservatory, and a fine subject for the sub tropical garden. A distinct and beautiful plant.....	
*Colensoi Variegatum. This beautiful plant has fine broad erect pointed dark green leaves, elegantly banded at the margin with one or sometimes with two conspicuous stripes of creamy white. It has the same mode of growth as P. Tenax, but is altogether distinct, while its more erect habit gives it quite a distinct appearance...\$1 to	2 00
*Cookii Variegatum. An elegant, somewhat dwarf growing plant; leaves green, beautifully striped with golden yellow. Native of New Zealand	2 00
*Veitchii Variegatum. This is a finely variegated form of the well known New Zealand Flax. The leaves are of the same size as the species, with conspicuous broad stripes of creamy white running out their whole length, and contrasting well with the light shining green ground color. It is a truly noble plant.....\$1 to	2 00
*Purpurea Fol Nigra Marginata. A distinct form of New Zealand Flax, with purplish green leaves, margined with black.....	2 00

YUCCA.

	Each.
<i>Alcæfolia Variegata.</i> We received a special premium for a fine specimen of this plant from the Maryland Horticultural Society. Leaves green, broadly striped and banded with yellow; a beautiful variegated plant.....	75 cts. to 1 50
* <i>Quadricolor.</i> The foliage of this is long, recurved and beautifully variegated. A very fine plant.....	1 50
* <i>Pendula Variegata</i>	

DIPLADENIA, (*Echites.*)

* <i>Williamsii.</i> A splendid hybrid. Color soft pink or rosy crimson; it is very profuse; flowers produced in large clusters, the raceme continuing to grow and produce a succession of blooms—a marked and desirable character in this variety. Its prolific blooming qualities will render it a most desirable plant.....	1 00
* <i>Amœna.</i> Flowers of a soft pink color, suffused with rose, somewhat resembling <i>D. Splendens</i> , but in every respect a great improvement on that variety, being of superior form, the lobes being stiff and round, instead of reflex and pointed.....	0 75
* <i>Hybrida.</i> A very floriferous variety; flowers resembling <i>D. Insignis</i> , both in color and form, but are produced in much greater profusion.....	1 00
<i>Insignis.</i> This is a fine addition amongst stove climbers and exhibition plants; flowers from 4 to 4½ inches in diameter, of great substance; tube white, the remainder of the flower being rich deep rosy carmine.....	1 50
* <i>Brearleyana</i> "This splendid variety of <i>Dipladenia</i> is one of the best exhibition plants extant. Its superbly colored flowers, which are of the largest size, opening pink and changing to the richest crimson color. They have this remarkable peculiarity, that the color increases in intensity with the age of the flowers,".....	1 50
* <i>Profusa.</i> This is a grand species, being very floriferous in character, blooming when very small, and lasting a long time in perfection. The flowers are 5 inches in diameter, rich carmine, of fine substance, produced abundantly in bunches from the axils of the leaves. This species has the best constitution of any <i>Dipladenia</i> we have grown, keeping its foliage nearly all the season. There is no plant more beautiful than the <i>Dipladenia</i> , lasting as it does, four to five months in flower.....	2 00

JASMINUM, SAMBAC (*Arabian Jasmine.*)

<i>Duchesse d'Orleans.</i> Flowers double, white, like miniature white roses, deliciously fragrant, a very valuable plant.....	0 25

 Marshalli. The leaves are a bright green marked between the principal veins with broad wedge shaped blotches of blackish purple 0 25
 Jenningsii. A delicate green, heavy blotches of black..... 0 25
 Bataviensis. Foliage and stem dark purple..... 0 25
 Auriculata..... 0 25
 Javonica. Beautiful green..... 0 25

This class of Alocacias bed out finely.

NEW TUBEROUS-ROOTED BEGONIAS.—Single Flowered.

The following novel and beautiful varieties will be found admirably adapted for the summer and autumn decoration of the greenhouse and conservatory; for they produce in the utmost profusion magnificent flowers of very large size, and great variety in color. They do not require stove cultivation, but will succeed well in a greenhouse. The tubers rest during the winter months, similar to Gloxinias, and can be easily re-started in growth in the spring. Their profuse flowering quality, and the charming variety of color of their blossoms, render them extremely showy and effective.

	Each.
*Admiration. Orange scarlet, large and fine.....	1 00
*Countess of Kingston. Intense purplish crimson, immense flowers.....	1 50
Davisii. It is a native of the Andes of Peru. It is of the dwarfiest habit, the leaves and flowers all springing from the root stock. The scapes which rise erect above an elegant bluish green foliage, are bright red; each scape bears three dazzling scarlet flowers.....	0 50
Freëbelii. A splendid new species from Ecuador, very distinct and attractive, producing well above the foliage, erect bunches of large brilliant scarlet flowers; the foliage is of a bright green color, furnished on the under side with a thick covering of white hairs.....	25 cts. to 0 50

NERIUM —Oleanders.

We have given much attention to the collecting of the very choicest *Neriums* from the finest growers in Europe, and the following may be confidently relied on as the finest in cultivation.

	Each.
Album Maximum. A very large and pure white semi-double.....	0 25
Atropurpurea plenum. Double rich color.....	0 50
Cardinale, (Double.) Rich double vermilion, lighter in centre of petals, one of the finest dark <i>Neriums</i> in cultivation	0 50
*Flavum duplex, (new.) Semi-double, pale sulphur, distinct.....	0 50
Geant de Batailles, (s.) Light blush centre, petals edged with crimson.....	0 50

	Each.
Gloriosum, (new) Flowers very large and double, of a brilliant cherry crimson, extra fine.....	0 50
Grandiflorum plenum. Cherry crimson, large and double.....	0 25
Jean d'Arc. Pure white, single, occasionally semi-double, a most profuse bloomer; a very valuable variety. Can be highly recommended.....	0 50
Madoni Grandiflorum, (new.) Beautiful semi-double pure white flowered, splendid, free blooming, superb.....	0 30
Mad. Chas. Baltet. Cherry carmine, large and very double, a fine variety.....	0 30
Souvenir de Claude Sahut. Rich carmine, large and very double, very beautiful.....	0 30
*Professor Durand, (new.) Flowers pale yellow, semi-double.....	0 50
*Luteum Novum, (new.) Fine new single, pale sulphur.....	0 40
Lilian Henderson. This beautiful Oleander is the most prolific bloomer and finest of the white flowered varieties. The flowers are double, full petaled, rose-like in form, with a delicious perfume; small plants blooming freely will cause this plant to be grown largely for decorative purposes as well as being unique for the bouquet.....	0 50
On small plants the double varieties frequently produce semi-double flowers.	

BOUVARDIAS.

For autumn and winter blooming plants the Bouvardias are well known to every florist. They are of the easiest culture, giving their rich colored flowers in great profusion.

	Each.
Alfred Neuner. This is equal, if not superior, in profuse blooming quality to the valuable single white variety, Davidsonii, of which this double white one is a sport.....	0 25
Flavescens, (new.) Flowers like Jasminiflora, but of a canary yellow, a very desirable novelty.....	0 25
Sanguinea, (new.) Color crimson vermillion, a very fine new variety.....	0 25
Alba Odorata. Pure white centre of great substance, and very richly fragrant.....	0 25
Humboldtii Corymbiflora. The blossom is the largest hitherto known in the group; the flower tube three inches in length, snow white and exquisitely fragrant.....	0 25
Umbellata Alba. Broad pure white petal lobes; it is in the style of B. Davidsonii, but much neater in its leaf growth.....	0 25
Leiantha. Dazzling scarlet.....	0 25
Floribunda. Flowers orange scarlet, very distinct and fine.....	0 25
Hogarth. Splendid raceme, rich scarlet, vigorous grower, fine habit.....	0 25
Longiflora. Snow white, long tube, beautiful.....	0 25
Hendersonii. Delicate waxy flesh color, a sport from Hogarth.....	0 25
Elegans. Color a scarlet carmine, flowers and trusses of immense size.....	0 25
Laura. Bright pink.....	0 25
Jasminoides. A beautiful species in the way of B. Longiflora, with larger terminal and auxiliary racemes of fragrant snow white flowers.....	0 25
Davidsonii or Vreelandii. The finest of all white Bouvardias, and of the free growth of its parent Hogarth.....	0 25
President Garfield. Double pink, quite as free in profusion of flowers as the Double White.....	0 25
Rosea Multiflora. Of free growth and profuse flowering, color bright rose.....	0 25

DRACÆNA.—Dragon Tree.

Our rich collection of Dracænas has been awarded the first premium by the Maryland Horticultural Society for several years, and first premium at the "Cincinnati Exposition." For decorative purposes these plants are now extensively grown, their broad dark tropical foliage and graceful habit render them very appropriate.

	Each.
*Laingi, (new.) The leaves are from 8 to 10 inches long and from 2 to 2½ inches broad. The latest formed are pale green with broad bands and margins of creamy white faintly tinged with rose. The older leaves are deeper green bordered with crimson and white; the wings of the footstalks of the leaves are also crimson.....	2 00
*Superba. This is, without doubt, the most slender and graceful growing variety ever offered. For table decoration and pot culture it is unsurpassed. The leaves are pendulous, arching, from 12 to 18 inches long, from 1 to 1½ inches broad, linear lanceolate, dark bronzy green, margined and striped with bright crimson. The young leaves are rosy crimson.....	1 50

- **Princess Margaret*. A very fine variety. The leaves when first expanded are creamy white, slightly shaded with green of a tint quite unlike any other *Dracæna* in cultivation, with a few oblique stripes of deep green, with a pale crimson midrib, 50 cts. to 1 00
- **Dracæna Frederici*. It has a compact, yet graceful habit of vigorous growth. Its leaves assume a rich rosy crimson color, and is a grand decorative plant. One of the most valuable, as it colors beautifully in a small state..... 50 cts. to 1 00
- **Macarthurii*. Of very compact growth and bright colored foliage. They are very elegant both in form and coloring, the latter being especially brilliant and attractive, rendering this variety one of the most distinct in cultivation.....50 cts. to 1 00
- **Rosea-picta*. A plant of robust habit and bold aspect. The leaves are beautifully colored with a delicate rose tint which deepens by age to a bright carmine, finely contrasting with the ground color, which is a deep olive green.....50 cts. to 1 00
- **Terminalis Alba*. This is *D. terminalis*, but with white variegation. The ground color bright green with bold pure white variegation, the upper leaves being white, in some cases large sectional patches are colored white, while leaf-stalks are also edged with white; colors very early..... 50 cts. to 1 00
- **Bausei*. Leaves recurved, dark bronze, the margin crimson, narrow in the lower leaves, becoming broader and more developed on the upper ones, the youngest and uppermost being broadly and brilliantly edged with deep rose.....50 cts. to 1 00
- **Wisemanii*. A handsome stove shrub, with the leaves of a bronzy hue, red at the margins, and breaking out into white in the younger growth.....50 cts. to 1 00
- **Robinsoniana*. The ground color is a light olive green, very much striped with bands of bronzy crimson and greenish white; the petioles are margined with crimson.....50 cts. to 1 50
- **Elegantissima*. The leaves are of a deep bronze, with a metallic lustre, and very distinctly margined with bright crimson, in the young leaves crimson of a lighter shade entirely predominates.....50 cts. to 1 00
- **Speciosa*. The leaves are broadly striped or margined with a yellowish creamy white, stained and edged with light rosy pink; the ground color is a rather light but pleasing olive green.....50 cts. to 1 00
- **Hybrida*. The older leaves are of a deep green color, margined with bright rose; as the plant attains age, the latter formed leaves become entirely suffused with deep rose and creamy white, the foot-stalks being also of deep rose50 cts. to 1 00
- Mooreana*. The habit is compact and especially suitable for decorative purposes. The base of the leaf-stalk and the mid rib are of a bright reddish crimson color, which, in the leaf itself, changes to a glossy bronze.....50 cts. to 1 00
- Amabilis*. This is a magnificent variety. The ground color of the leaf is bright glossy green, becoming beautifully marked and suffused with pink and creamy white, the young leaves being occasionally of quite a rosy color.....50 cts. to 1 00
- Baptistii*. The leaves are green, 1 to 1½ foot long, four inches broad, margined and irregularly and obliquely striped with narrowish creamy white flakes, passing through pale pink to deep rose.....50 cts. to 1 00
- Excelsa*. Large leaves of an erect arching habit and of a deep bronzy hue, margined with deep magenta crimson. This bright color is continued throughout the edge of the leaf, breaks out into streaks and patches.....50 cts. to 1 00
- Fraseri*. Leaves margined with bright rosy lake. The principal part of the leaf is of a blackish purple with a glaucous bloom, a marginal stripe of deep magenta runs down into the edge of the petiole.....50 cts. to 1 00
- Guilfoylei*. A most superb species. The ground color is bright green; fully one-half the leaf, however, is striped with white and bright rosy red, the latter color mostly forming the border in addition50 cts. to 1 00
- Magnifica*. This is a very handsome plant; leaves nearly two feet in length and eight inches in breadth, when the plant is well grown. The foot-stalks are reddish purple, and the leaves are rich bronzy brown suffused with pink.....50 cts. to 1 00
- Metallica*. The leaves are sixteen inches long. These, together with the sheathing leaf-stalks, are of a uniform rich coppery purplish hue when young, becoming a dark purplish bronze when mature.....50 cts. to 1 00
- Nigro-Kubra*. An exceedingly beautiful plant; leaves upwards of eighteen inches in length, ground color rich brown, the centre crimson, shaded with rose.....50 cts. to 1 00
- Regina*. This is a plant producing very large and broad leaves, the ground color is bright green, but fully one-half of the leaf is variegated with creamy white.....50 cts. to 1 00
- Shepherdii*. This takes on its distinctive coloring gradually on the older leaves, the young ones being green, and showing paler green stripes on those parts which take on at a later period the peculiar bronzy orange hue. It is very free growing.....50 cts. to 1 00
- Brazilensis*. A robust growing species, with large, broad green foliage..... 0 50

Each.

Splendens. The color is a deep bronzy green, breaking out in the young growth into bright rosy carmine. The brighter coloring appears sometimes in stripes, and sometimes occupies the whole surface.....	50 cts. to	1 00
Imperialis. The variegation is in this case of clear white combined with deep rose, and is most effective. The color is a deep green, breaking out freely in the young leaves into white.....	50 cts. to	1 00
Macleayi. Leaves are some eighteen inches long and about four inches wide, of a rich metallic bronze. It is very distinct in habit and color.....	50 cts. to	1 00
Porphyrophylla. A noble stove shrub of erect habit, with bold broadly oblong leaves of a fine deep bronzy green color, having a glaucous bloom on the under surface.....	30 cts. to	0 50
Ensifolia, (Dianella Ensifolia). Foliage green, fine window plant.....	0 50	
Elegans Rubra.....	0 50	
Ferrea. Foliage broad dark crimson.....	30 cts. to	0 50
Haageana. A very distinct variety, with green foliage.....	30 cts. to	0 50
Nigrescens. Foliage very dark blackish brown, a very distinct variety.....	0 50

Terminalis Stricta. A variety with brilliant foliage.....	30 cts. to	0 50

Specimens and half specimens of all can be supplied during summer and autumn, suitable for exhibiting at Fairs; Flower Shows, &c., at moderate prices.

CORDYLINE.

Australis. A very long, narrow, graceful foliage.....	25 cts. to	0 50
Indivisa. Long, narrow and graceful foliage.....	25 cts. to	0 50

Australian plants of much grace and beauty, admirable for vases, single specimens on lawns, &c.

CROTON.—(Codiaeum.)

These ornamental plants are natives of the South Sea Islands; they are among the most beautiful of variegated plants, the leaves being blotched with yellow and red in various ways, which renders them most attractive and valuable for decorative purposes. They are of the easiest culture, succeeding in any warm greenhouse.

Our rich collection of Crotons has been awarded the leading prizes by the Maryland Horticultural Society for some years, and first premium at the Cincinnati Exposition.

Each.

Aurea-Maculatus. A small leaved variety of very neat and compact habit. The leaves are ovate-oblong, not more than 3 inches long and 1½ inches broad, deep but bright green, profusely spotted with golden yellow. It is quite distinct.....	25 cts. to	0 50
Nobilis. A beautiful variety with long pendulous leaves, richly colored with many tints. The colors are crimson, yellow, and green in many shades, the crimson being predominant in the stems, footstalks of the leaves and mid-ribs, where it is bordered by bands of deep golden yellow.....	25 cts. to	0 50
Mooreanus. The color and markings of the foliage are rich and distinct. The mid rib and margin of the leaf are of a clear orange yellow, with the blade crossed with parallel bands and stripes of the same color upon a deep green ground.....	25 cts. to	0 50
Andreana. A variety of neat habit and free growth. The foliage colors in the most exquisite manner. One of the most beautiful of Crotons.....	50 cts. to	1 00
Disraeli. In the newer leaves the mid-rib and margin of a light yellow. As the foliage becomes older the yellow subsides to a bright orange yellow. In the mature leaves the margin is a bright scarlet, and the mid-rib is striped by a band of the same bright color between two lines of a deep golden yellow.....	25 cts. to	0 50
Bismarcki. The color is a deep green, with a broad band of golden yellow along the costa, and yellow markings indicating the course of the lateral veins, in addition to which a few slight yellow blotches are scattered over the surface.....	25 cts. to	0 50
Johannis. The leaves are from twenty to twenty-four inches long, narrow and pendulous, ground color bright shining green, the margins and mid-rib bright orange yellow, a beautiful variety.....	50 cts. to	1 00
Irregulare. Leaves broadest at the base and tapering to an obtuse point, about 9 inches long, and most diversified in shape, scarcely two leaves resembling each other; ground color dark green, mid-rib orange yellow, with the upper surface of the leaf irregularly spotted and blotched with yellow.....	25 cts. to	0 50

	Each.
Lord Cairns. This has trilobate leaves. The color of the foliage is a bright green, the mid-ribs of the leaves a light yellow, blotched and spotted with the same color, the spots and blotches being irregularly scattered over the surface.....	25 cts. to 0 50
Majesticum. A truly grand variety, leaves from twelve to eighteen inches long, somewhat narrow; when young the leaves are deep green, ribbed with golden yellow, the green changing with age into a deep olive and the yellow becomes crimson.....	25 cts. to 0 50
Multicolor. Leaves irregular in shape, contracted in the centre and twisted at the point, light green blotched with yellow, but changing to glossy green blotched with yellow, reddish yellow and red, the mid-rib crimson.....	25 cts. to 0 50
Spirale. The spiral leaves render it most distinct. they are from nine to twelve inches in length and pendulous; in a young state, the ground color is deep green, striped up the centre with a broad band of golden yellow; with age they change to a deep bronzy green.....	30 cts. to 0 50
Tortilis. A remarkably fine variety with twisted foliage, very distinct. The mid-rib of each leaf grows in a spiral from the base to the point. The ground color is of a deep olive green, the mid-ribs of the mature leaves bright crimson, bordered on each side with a line of deep yellow.....	30 cts. to 0 50
Volutum. The leaves being rolled up from the end in a volute, after the manner of the curving of a ram's horn. The ground color is deep green, a golden bar runs down the centre, from which yellow veins diverge at about half-inch intervals, and meet near to, and so as to coalesce with the golden margin.....	0 50
Veitchii. A splendid variety. The leaves attain a length of twelve to fourteen inches, and two-and-a-half inches in breadth, and are traversed by broad bands of creamy yellow, which change with age into rose and carmine purple.....	25 cts. to 0 50
Undulatum. The edges of the leaves beautifully undulated and wavy, and the variegation consisting of numerous markings and blotches, which in the matured leaves are of the brightest crimson on a dark green ground, and in the young leaves, at first yellow.....	25 cts. to 0 50
Weismannii. This is one of the most beautiful of all the forms; leaves about a foot long and three-fourths of an inch wide; ground color shining bright green striped and mottled with golden yellow.....	25 cts. to 0 50
Chrysophyllum. At the upper ends of the shoots they appear to be almost entirely golden. The upper leaves are shorter than the lower, somewhat wavy-edged and occasionally about once twisted; the petioles are red.....	25 cts. to 0 50
Bicornutum. This is a curious and handsome variety; leaves irregular in shape, dark green, blotched and spotted with yellow, and having a horn like extension of the mid-rib, which has given rise to its name.....	30 cts. to 0 50
Youngii. This magnificent Croton is of noble and graceful habit; the leaves are of great substance, from 1½ to 2 feet in length, deep red underneath, while the upper surface is dark green, densely blotched and suffused with creamy yellow, and bright rosy red.....	30 cts. to 0 50
Interruptum. Very long leaves, nearly an inch broad, mid-rib bright scarlet, shading to a golden yellow; an exceedingly graceful plant.....	25 cts. to 0 50
Longitolum. Leaves green, blotched and striped with golden yellow, very long and graceful; a magnificent plant.....	25 cts. to 0 50
Picta. Foliage dark green, spotted with red and yellow.....	25 cts. to 0 50
Variegatum. Leaves dark green, blotched and spotted with golden yellow.....	25 cts. to 0 50
Variegatum Rubrum. Leaves dark green, striped and spotted with red and golden yellow.....	25 cts. to 0 50

Specimen and half specimen plants of all can be supplied during summer and autumn, suitable for exhibiting, at moderate prices.

HIBISCUS ROSA SINENSIS.—Chinese Hibiscus.

ALL ARE MAGNIFICENT PLANTS FOR BEDDING OUT.

Collierii, (new.) A remarkably distinct variety. The flowers are of a buff-yellow, with a crimson scarlet base, and are particularly handsome.....	0 30
Cruentus. The flowers are compact and double, of a remarkably rich crimson red, and having a strikingly showy character.....	0 25
Carminatus perfectus. It has very large flowers, nearly five inches across, with broad and slightly undulated petals, of a rich soft carmine rose, with a deep crimson eye,.....	0 25
Fulgidus. Flowers very large, composed of fine, broad, round and beautifully undulated petals, of an intense carmine scarlet.....	0 25

	Each.
Miniata Semi plena. Brilliant flowers of a vermillion scarlet color, darker towards the base of the petals. The flowers are semi-double	0 25
Puniceus. The flowers are double, neat and compact, of a very elegant crisped appearance, color bright dense crimson	0 25
Lambertii. Flowers large, of a deep crimson, very fine	0 25
Van Houttii. (new.) Another magnificent flower, large, of a deep crimson, extra fine,	0 25
Rosa Sinensis. Flowers deep crimson, single	0 25
Rosa pleno rubra. Double crimson	0 25
Rosa pleno Jaune. Double yellow	0 25
Rosa pleno Aurantiaca. Double orange	0 25
Rosa Sinensis Variegata. Leaves beautifully variegated with white	0 30
Grandiflora. This is a beautiful new plant in the way of the fine old plant H. rosa Sinensis, it has very large flowers of rosy crimson	0 25
Cooperii tricolor. Beautifully variegated in foliage and flowers	0 25

GARDENIA.—Cape Jasmine.

The Cape Jasmine is well known for its delicious fragrance, as well as the beauty of the flowers, which are large, white and double.

	Each.

Schoenbrun. Ever blooming, single dark blue, very hardy.	
King of Violets. Large and double, indigo shaded with violet.	
Marie Louise. Very fine double flowers, purple, with white centre, forces well.	
Princess Louise. Double white, fine.	
Victoria Regina, (Lees.) This is a most beautiful single violet, with blooms 1½ inches in diameter, pale blue, very fragrant.	

Price 15 cents each, \$1.50 per dozen, (save where priced.) Large plants in autumn 25 cents each, \$2.00 per dozen.

LAGERSTRAMEA.—Crape Myrtle.

Indica Alba. White Crape Myrtle, a very beautiful shrub	0 25
Indica Rosea. Rose or pink, the variety generally grown	0 25
Indica Purpurea. A bright purple, a vigorous grower and free bloomer	0 25
Indica Magenta. Color a bright magenta	0 25

- Indica New Crimson. Bright deep crimson, no variety hitherto introduced approaching it in color; a profuse bloomer, giving immense heads of its rich flowers..... 0 25
- The Crape Myrtle is well-known in this latitude and South as our most beautiful summer flowering hardy shrub. North, it will need protection.

PUNICA.—Pomegranate.

- Nana, Improved. It blooms freely in a small state, and larger specimens are sheets of bloom. Being such a profuse bloomer it is exceedingly desirable from its rich color, brilliant orange scarlet..... 0 25
- Alba Pleno. Double white..... 0 25
- Rubra Pleno. Double red..... 0 25
- Rubra Prolifera. A profuse flowerer..... 0 25
- Legrelliae Pleno. Reddish yellow bordered with white, very double, splendid..... 0 25

NEW and RARE HARDY TREES and SHRUBS.

- Abelia Rupestris. A dwarf compact shrub, flowers pure white in long racemes during summer and fall; a beautiful shrub, quite hardy..... 0 25
- *Althea Cerulea (Rose of Sharon, Hibiscus Syriacus.) A distinct and beautiful variety with single blue flowers..... 1 00
- Andromeda Arborea, (or Oxydendron.)—Sorrel Tree. A rare American small tree, known in Europe as Lily-of-the-Valley Tree, from the resemblance of its blooms to that lovely flower..... 0 50
- *Azalea Ghent, in varieties, finest seedlings..... 1 00
- Acer polymorphum. Dwarf Japanese maple..... 0 50
- * Atropurpureum. Foliage deep purple shaded with claret; a beautiful variety... 1 50
- * Dissectum. Foliage similar to the above, but deeply cut..... 1 50
- * Rosea Pictis. Foliage deeply and finely cut..... 1 50
- * Reticulatum. Deeply lobed leaves, reticulated with white and yellow..... 1 50
- * Rosea Marginatus. Leaves tipped and edged with rose..... 1 50
- * Sanguineum. Blood leaved, deeply lobed, leaves a rich colored and very beautiful maple..... 1 50
- * Japonicum. Of slow compact growth, with large leaves. A very distinct and handsome species..... 1 50
- * Castenifolia. A very distinct and handsome maple..... 2 00
- Aralia Sieboldi. A very handsome evergreen with large shining green leaves, nearly or quite hardy. A fine decorative plant..... 25 cts. to 0 50
- Callicarpa Purpurea. It blooms in August; these are succeeded by a crop of small berries, which are of a bright lilac purple, and which continues up to winter. This plant is quite hardy..... 0 30
- Carpenteria Californica. This is an extremely rare shrub even in its native habitat. It is a handsome shrub, the flowers being large pure white, with yellow tipped stamens. The leaves are broadly lance shaped, of thick texture, with recurved margins; it grows from six to fifteen feet in height and is very bushy. One of the most valuable shrubs which have been introduced for years. "A great acquisition." —Garden. (See cut.)..... 1 00
- Ceanothus, Marie Simon. Large spikes of rosy carmine..... 0 50
- Scepter Azur. Long spikes of azure blue..... 0 50
- Cedrela Sinensis. A very beautiful hardy tree of rapid growth, from North of China, with large foliage similar to Ailanthus, and yellowish bark. This is a very handsome new tree, very desirable for gardens, lawns, cemeteries, &c., its fine large shining foliage being most distinct, and the tree, withal, perfectly hardy.....
- Climbing Hydrangea, (Schizophragma Hydrangeoides.) This is described as clinging to trees to the height of 50 feet, producing corymbs of white flowers of the size of ordinary Hydrangeas. It clings exactly like ivy..... 30 cents to 0 50
- Crataegus Lalændi. A variety of Pyracantha, much superior to the type, has deeper colored berries and a more compact and better habit..... 0 25
- Cocculus Carolinianus. A rapid growing climber, perfectly hardy. It produces racemes of vivid scarlet berries which hang on the vines all winter..... 0 25
- *Daphne Genkwa—(Japan Daphne) An exceedingly beautiful small shrub, with long downy twigs, which in spring before the leaves appear, bear violet colored fragrant flowers about an inch long. One of the most beautiful of early flowering shrubs... 1 00

	Each.
Desmodium Japonicum. A pretty dwarf Japanese shrub, which is quite hardy. "Its drooping branches are entirely hidden by millions of its white flowers, which are freely produced from August to beginning of winter,".....	0 25
Penduliflorum. Similar to the last, with purple flowers.....	0 25
Dimorphanthus Manchuricus. This noble deciduous shrub has been introduced from Manchuria, and, therefore, is perfectly hardy. Its handsome multifid leaves are about a yard in length, and as much in breadth, similar to Aralia Japonica.....	0 50
*Gelsemium Sempervirens pleno. Double flowered Carolina Jasmine, an exceedingly beautiful climber: rich yellow flowers.....	0 75
*Hydrangea Japonica, Mad. Von Siebold. A fine new Hydrangea.....	0 75
Ramis pictis.....	0 50
Hypericum Patulum. Its individual flowers, which are produced in bunches, are pale yellow and of great substance, resembling much in appearance the beautiful Gardenia Javonica.....	0 25
✓ Idesia Polycarpa. A very beautiful new Japanese tree. The flowers are of a yellowish green, in long gracefully drooping branched racemes. They are deliciously fragrant, their color resembling that of a Vanda. These are followed by numerous orange berries, about as large as a small cherry. Tree quite hardy.....	0 50
✓ Ligustrum Japonicum Tricolor. A very fine variegated shrub, centre of leaf green, broadly margined with silver.....	0 30
Menziesia Polifolia Alba. White flowered Irish Heath. A very beautiful dwarf shrub, quite hardy.....	0 50
✓ Muhlenbeckia Complexa. An exceedingly pretty trailing plant, with small round leaves thickly set upon the branches, having very much the appearance of Maiden Hair Fern.....	0 30
Nevisia Alabamensis. "Snow Wreath." A new native shrub of great beauty. "It occurred in thickets under a long escarpment of rock, and when in full bloom looked like a snow wreath. In its native place it had a southern exposure at the base of a high cliff, and at an elevation above the tops of the trees below; at that place I have seen virgate wreaths of it three feet long covered with bloom,".....	0 50
Philodendron Amurense. A pretty medium-sized tree from the Amour, with a straight stem and dense head and long pinnated foliage, produces the Siberian Cork. "This is just now (November) a beautiful object in my garden. My specimen tree is about 12 feet in height, and has a tall pyramidal crown of from 3 to 6 feet. The form of its foliage, which is deeply lobed, gives it a singular appearance, and the coloration of the leaves, which are bright red, is very fine. It retains its foliage very late."—Max Leichtlin.....	0 50
Pæonia Moutan Banksiæ. Double Chinese Tree Pæony. A magnificent flowering shrub, quite hardy.....	50 cts. to 1 00
✓ Pyrus Maulei. This desirable new fruit is allied to the Japanese Quince. The fruit is of the size of a moderate Quince, of a bright apricot color, and makes a rich conserve. The flowers, which are produced in great profusion, are of a most brilliant orange scarlet color. It is one of the most beautiful flowering trees of recent introduction, as well as a valuable fruit.....	Small plants, 0 50
Japonica Alba Semi-pleno. Semi-double white Japan Pyrus.....	0 50
Rhododendron Catawbiense. Finest seedlings, 1 to 2 feet.....	\$1 to 2 00
Maxima. Large leaved, 1 to 2 feet.....	\$1 to 2 00
Punctatum.....	1 00
Styrax Japonica. This is one of the finest hardy shrubs, of vigorous compact growth; blooms early and most profusely; the plants are sheets of bloom, which are pure white, most charming, admirably adapted for cemeteries.....	0 25
*Syringa, (Lilac), Hyacinthiflora pleno. A magnificent double flowered lilac; large thyse of rich double lilac flowers.....	1 00
*Lemoinei pleno. Another magnificent double flowered lilac, with immense thyrses of delicate rose colored flowers, a grand and exceedingly beautiful plant.....	1 00
*Rubella pleno. Immense thyse of double mauve colored flowers; a grand variety.....	1 00
Renoncule. Very double, Ranunculus shaped, color azure mauve, immense thyse, very fine. Ready in April.....	1 00
Wiegelia Incarnata. A beautiful bright colored variety.....	0 25
Beranger. Flowers crimson, very free.....	0 25
John Standish. Large flowers of purplish crimson.....	0 25
Ed. André. A very beautiful new variety, interior of flower purple, exterior very dark blackish purple.....	0 25
*August Wilhelm, (new.) Rosy amaranth.....	0 25

*Wiegelia Candida, (new.) The finest and purest white.....	Each. 0 25
Zanthoceras Sorbifolia. This is one of the most beautiful hardy shrubs which have been introduced for years. It is a native of central China. It is a shrub or small tree, not attaining over ten or twelve feet in height and bushy. The flowers expand during April at the same time as the leaves, and are disposed in racemes which attain a height of eight inches, and sometimes more. They are white, having a slight fleshy tint and reddish copper colored at the base, shading off to a purple violet. This lovely shrub is perfectly hardy.....	0 75

CLEMATIS.

Among the most beautiful of climbing plants are the Clematis—whether trained over lattice work, on pillars or trailing on the ground. There can now be found among them great variety of colors; all are profuse bloomers and quite hardy.

Class I.

PERPETUALS, Summer and Autumn bloomers flowering on shoots of the same year's growth, raised between Lanuginosa and Vivicella, except the five first named, which are species.

Coccinea. A native Southern species, quite hardy, flowers small, bright scarlet; a very interesting plant.....	Each. 0 30
Erecta pleno. Flowers double white.....	0 50
Flammula. Sweet scented, the flowers are small, pure white and fragrant.....	0 25

Flamme de punch. Large rose, flaked with punch flames and adorned with pure white hieroglyphs.

GLOXINIAS.—(Class 1.)

The varieties of this genus are all very handsome, producing abundance of magnificent flowers of a most beautiful description. The tubers should be potted in February or March. Place in a little heat to start them into growth; water sparingly till the plants are well established. When in bloom bring them into the conservatory or drawing-room. After the plants have done blooming dry gradually off, by withholding water from their roots; afterwards remove them to a warm, dry place.

The following are superlatively beautiful:

Those marked thus (e) have erect flowers.

(e) **Duc Decazes.** A splendid flower; white ground beautifully maculated with lilac magenta.

(e) **Cinderella.** Pure white with pink band, most beautiful.

Ernst Banary. Dark lavender, mottled with white, a beautiful flower.

Henry Husson. White, with a lavender lip, a large showy flower, beautiful.

(e) **Boule de Neige.** Pure snowy white, fine form, an abundant bloomer.

Duchess of Teck. Large drooping flowers of a rich magenta, shaded with maroon; the ground color is lighter at the edges of the lobes.

Excelsior. Horizontal, with lower side lobes of corolla enlarged; deep glowing crimson, a very robust free flowering variety.

(e) **Lisere D'Argent.** Intensely bright crimson scarlet, distinctly margined with pure white; light throat beautifully spotted and freckled with carmine.

Madame Hatti. Fine scarlet flower, throat deep red shaded with purple, slightly blotched with white, margin rosy scarlet.

(e) **Matador.** Very dark reddish crimson, neatly bordered with white; very rich and showy.

Scarlet Gem. Crimson scarlet, extra fine.

Price 25 cents each; \$2.50 per dozen.

Miss Hannah de Rothschild. Large white, tinted with purple; throat purple shaded mauve, lower part creamy white.

(e) **Mrs. Haines.** Splendid erect flower, throat purplish violet, bordered with vermilion scarlet, with deep margin of rose color.

Prince Arthur. A large deep purple flower, the two upper lobes and margin light purple.

Prince Leopold. Throat purplish violet, scarlet margin shaded with pink.

The Hon. Mrs. York. Creamy white throat, bordered with mauve, with a margin of rich pink.

Mogul. Tube dotted with red, purple crimson limb, very clear at the border.

(e) **Princess Royal.** Tube and edges white, throat mottled with dark blue, fine.

Theresa Saul. White, with crimson lips, fine.

Quadricolor. Rose, flaked with white, super-cochineal spots; throat lilac.

Sauvis. Color white, with millions of tender rose colored dots.

Byron. White ground the margin of the limb is amaranth festooned with purple.

(e) **Gæthe.** Erect flower, vermilion rose with almost black throat, and white bottom.

Schiller. Erect flower, fiery cherry sprinkled with violet, very large flower.

***NEW GLOXINIAS.—(Class 2.)**

Agnes M. Saul, (Saul.) Light crimson scarlet, fine large flower, very fine.

Artevelde. Flowers enormous, velvety violet, edge of the throat blackish purple.

(e) **Ami Thibaut.** Creamy white covered with spots all over, frosty arabesques.

Alphonse Karr. Throat yellow, limb rich cochineal.

B. S. Williams. Flowers very squat, very intense fiery vermilion.

(e) **Clio.** Crimson lobes, mouth shaded violet, throat freckled.

Bradamante. Pure white tube, light rose lobes bordered with rich rose and blotched with white.

(e) Clemence Delahaye. White tinted with flesh color, lobes marked with cerise and margined with rose.

(e) Cornelei. Dark violet, lobes striped and spotted, and margined with white.

(e) Cardinal de Richelieu. Creamy yellow throat spotted with purple and ornated with a rich violet and crimson

(e) Conquest. Lobes of corolla, bright peach margined with white; throat light pink and spotted, very distinct.

(e) Albo-Marginata Myriostigma. White spotted with carmine, and bordered with pure white,

Cecile d'Elchingen, bright crimson bordered with rose, a very large and fine flower.

(e) Boule de Feu. A fine large flower of the most intense and brilliant red color.

Francis Saul, (Saul.) Blue, with a deep purple throat, a large finely formed flower.

Gloria Mundi. Enormous flowers, velvety lake rose.

(e) Henri Flèche. Magenta, brilliantly shaded with red at the mouth; edges of the lobes widely bordered with snowy white.

Livingston. Rich velvety crimson, shaded with violet and margined with rosy lilac; creamy throat shaded with rose.

Price 30 cents each; \$3 00 per dozen.

Harry Veitch. Violet, throat lavender.

Mrs Wm. Bull. Rosy red flaked and bordered with white.

(e) M'lle M. Moreau. Rose spotted and shaded with carmine, throat rayed with lilac.

M'lle A. Martin. Rich magenta, striped with solferino, lobes bordered with white.

(e) Mon Caprice. Soft mauve, the divisions of the lobes to the tubes white; very pretty.

(e) Sang Gaulois. A rich bright red color with golden reflections; dull red throat.

Tancrede.

(e) Pauline Breton. A very large flower, white tube and rosy carmine lobes, bordered with white.

Notaire Moens. Large superb flower, white, covered with light carmine dots, borders of limb pure white.

(e) Ne Plus Ultra. Flowers extra large, lobes of corolla deep violet purple, edges lighter, throat well colored, a superb variety.

(e) Rosy Morn. Flowers of fine form, rosy scarlet, very attractive.

Original. White, border of lobes amaranth spotted with white; a beautiful flower.

Rosina Saul. White with lavender, throat a chaste and beautiful variety.

Winifred Lawley, (Saul.) Throat purple, margined with white, extra.

VARIETIES OF VARIEGATED GERANIUMS.

- | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| Freak of Nature. Outside of leaves light green, with a large pure white centre; flowers light scarlet; habit very dwarf and spreading. It is undoubtedly far before any other of its class, and the greatest novelty in foliage that has been sent out for years..... | Each. |
| Mad. Salleroi. "Leaves from one to two inches in diameter, the centre of each is of deep olive green with broad margins of pure white; growing in dense round masses, it is not affected in the slightest by exposure to the direct sunlight,"..... | 0 30 |
| Happy Thought. Instead of the usual yellow outer belt or margin, in this instance the color forms a large conspicuous cream yellow blotch in the centre or disc of the leaf. The flower is a rich magenta rose, tinted with scarlet..... | 0 30 |
| | 0 15 |

MISCELLANEOUS DAHLIAS.

	Each.
Juarez, (Cactus Dahlia.) Dazzling scarlet, long petals curiously twisted at the points; they are as brilliant as those of a Poinsettia, and resemble somewhat the flowers of a Cactus; a grand bedding Dahlia.....	0 30
Maximilian. A very large growing species from Mexico. Flowers during winter in a warm green-house. Flowers semi-double, purplish lilac.....	0 30
Zimapani, Black Dahlia, (Bidens Atrosanguinea.) A very interesting species, admirably adapted for massing, and for the decoration of the border. It is of a neat compact habit, very free flowering, and invaluable for cutting purposes, as the flowers are small. It is of a deep rich crimson, almost black.....	0 40
*Double Floret Dahlia. Double of a ruby red color. It is peculiar in the filling up of the florets, which instead of being in the nature of tubes or cups are occupied with quills, or as we may term them, replica florets; a very interesting plant.....	0 50

Vesuvius. Dark scarlet, very large.

White Perfection. Pure white, extra.

PETER HENDERSON.

HYBRID PERPETUAL PINKS.

Suitable for bedding out in summer, or blooming in the greenhouse during winter; they are dwarf in habit, profuse bloomers, producing flowers in succession for several months.

Price 25 cents each, (save where priced.) The set of 5 for \$1.25.

Alba Fimbriata. Pure white, excellent for winter blooming.

Dianthus C. Grenadin. Like a dwarf carnation, bright scarlet flowers.

Napoleon III. Rich crimson, most profuse bloomer.

Wm. Saunders. Flowers of the richest crimson, a perpetual bloomer, one of the best hardy pinks.

*Mrs. Sinkins. "The largest of all white Pinks, the flowers are slightly creamy white, of immense proportions, freely borne on dwarf stems, it is very highly scented and has been the admiration of all who have seen it. The best white ever introduced." 50 cents.

LANTANAS.

These are exceedingly valuable plants for bedding out during the summer. They thrive in our hot, dry, sunny weather when so many of our other plants suffer.

Price 15 cents each, (save where priced,) \$1.50 per dozen.

Alba Grandiflora. Fine pure white.
 Aurantiaca. Beautiful orange.
 Comtesse de Morny. Yellow, changing to rose.
 Crocea Superba. Orange and red.
 Comtesse de Biencourt. Bright rose and orange centre.
 Delicatissima. Pink lilac.
 Diamant. A fine rich yellow. 25 cts.
 Distinction. Rich orange yellow, fading into rose.
 Empereur des Francaise. Scarlet and orange.
 Fabiola. Rose, yellow and orange.
 Favorite. Yellow, merging into purplish crimson.
 Globe d'Or, (new.) Golden yellow.
 Innocence. Pure white, dwarf habit.
 Jean Bart. Buff and crimson.

Jeanne d'Arc. White, yellow centre, passing to violet
 La Niece. A mass of snow white flowers.
 Le Lis. A pretty dwarf variety, flowers white. 25 cents.
 Lutea Superba Grandiflora. Golden yellow.
 Madame Dufoy. Pale yellow and rose.
 Madame Hoste. Golden yellow, passing to purple.
 Ninus. Yellow, changing to pink.
 Ne Plus Ultra. Purple and yellow.
 Princess Louisa. Yellow, merging into rosy crimson.
 Raphael. Orange rose and purple.
 Rosa Mundi. White and rose
 Solfatarre. Golden yellow.
 Toison d'Or. A deep chrome yellow.

AZALEA INDICA.

Our collection of Indian Azalea embraces the most select English and Continental varieties. Our stock is large and fine.

Price 3 inch pots, 25 cents each, \$2.50 per dozen; 4 inch pots, 30 cents each, \$3.00 per dozen; 5 inch pots, 50 cents each, \$4.50 per dozen. Extra sizes extra prices.

Alexander II. White tinted with rose, fine.
 Argus. Single, sometimes semi-double, finest possible form, salmon, with a black blotch.
 Baron Ed. Osey. Bright orange, with broad wavy lobes, amaranth rose.
 Bernhard Andrea. Rosy purple, double, very beautiful.
 Belle Gantoise. Clear lilac, edged with white.
 Baronne de Vriere. Snow white, with undulated edges, with red stripes and sulphur blotch.
 Borsig. A very beautiful double white, one of the finest.
 Comtesse de Flandre. Large, flat bright rose.
 Charmer. Bright amaranth of great substance.
 Charles Leirens. Semi-double, very dark salmon red, large black blotch, most beautiful.
 Cocarde Orange. Pure orange, with amaranth red blotch, form round, exquisite.
 Candeur. Pure white, fine form, beautiful.
 Comtesse de Beaufort. Rose blotch, deep crimson, with maroon reflex, extra fine.
 Dr. D. Moore. (new.) Very bright rose, with white and violet reflex, perfect form.
 Duchesse Adelaide de Nassau. Large, of fine form, the upper lobes amaranth.
 Dona Maria. Tender rose, edged with white, superior to Albocincta.
 Duc de Nassau. Dark rosy carmine, semi-double flowers, large flame colored blotch.
 Fascination. Rosy pink, edged with white, and spotted with crimson.
 Flower of the Day. Fine large white, striped with rose.
 Flag of Truce. Pure white, large and double, extra fine.
 Francois Devos. Clear deep crimson, double extra.
 Glory of Sunninghill. Salmon pink, large.
 Gledstanesia. Pure white, flaked with carmine.
 Gledstanesia Formosa. Pure white, striped carmine.
 Grossfurstin Helene. Fringed, shaded salmon deep amaranth blotch.
 Her Majesty. Scarlet, large, finely formed.
 H. Von Aumale. Light ground, marked with broad bands, scarlet.
 *Imbricata. "This is the best Azalea yet introduced. Imagine a pure white double Balsam, more than three inches in diameter, and perfectly imbricated, and one may form some notion of the beauty of this plant" 3 inch pots, 75 cents.
 Jean Von Volxem. Streaks of all shades and specially in bands of rosy orange.
 John Gould Veitch. Lilac rose, netted and bordered with white, blotched with saffron.

- Jean Verschaffelt. Deep orange, shaded with buff, edges crisped, rich blotch.
- Louise Von Baden. A beautiful pure white.
- Madame Cannart d'Hamale. Satiny white, occasionally striped.
- Mars. Bright orange red richly spotted with crimson.
- Météor. Bright rose, very double.
- Magnifica Alba Pleno. A magnificent double white variety.
- Madam Marie Van Houtte. White, striped, flaked and blotched with rosy salmon, like a carnation.
- Mont Blanc. A very fine variety, with double flowers, pure white.
- Marquis of Lorne. Beautiful orange, with large lobes and saffron yellow blotch.
- Mad Ambroise Verschaffelt. Variegated, constant in its stripes, flowers white, washed rose and striped crimson.
- Mad. C. Van Eckhaute. Flowers 4 inches in diameter, snow white, perfect shape, double.
- Madam Leone Van Houtte. White, flaked with rose, blotch sulphur yellow.
- Nonpareil. Orange, bordered with white, and spotted with chocolate.
- Narcissiflora. Double white, very early.
- Princess Charlotte. Deep rose, with dark amaranth blotch.
- Princess Louise. Shining tender rose, festooned with pure white, large carmine spot.
- President Van den Hecke. Pure white, striped with rose, double.
- Queen of Scarlets. Brilliant scarlet, marked with rich crimson spots on a violet ground.
- Queen of Roses. Rose color, with broad rounded flower lobes, upper lobes relieved by a cloud of small crimson specks.
- Queen of Double Stripes. A beautiful double white flower, occasionally coming elegantly tipped and streaked with rose.
- Queen of Double Whites. Flowers large, double, of the purest white.
- Queen of Whites. Finely formed, of the purest white.
- Roi de Beautés. Light salmony rose, suffused with violet, edged with white, double.
- Reine des Roses. Deep clear rose, red spots, large and attractive.
- Senator Kestler. Rosy crimson, very fine shape.
- Splendissima. White ground, striped with carmine.
- Souvenir du Prince Albert. Large double flowers, lobes broad, half white and half rose, edges pure white.
- *Sigismund Rucker, (new.) Lilac rose, strongly netted and bordered with white, bright saffron red blotch. 50 cts.
- Stella. Bright scarlet, deep violet satin on upper petal.
- Virgin Queen. Pure white, fine form.
- Vittata Crispiflora. White, striped with purple and crimson.
- Virginalis. Pure white, edge of flower frilled.
- Vivid. A fine rich scarlet, beautiful.
- *Empress of India, (new.) A very beautiful variety, flowers 4 inches in diameter, salmon rose, flamed with white and dark carmine, a first-class variety.
- *Jean Vervaeke, (new.) Rosy salmon, spotted with crimson, edged with white.
- *Louisa Pynaert, (new.) White, striped with violet, semi-double, extra fine.
- *La Pucella de Gand, (new.) Pure white, very large and finely formed, beautiful.
- *Mad. Vandercruyssen, (new.) Color bright clear rose, of good form, semi-double.
- *Mad. Jean Nuytens Verschaffelt, (new.) White relieved with a yellowish spot, a fine large flower of good form and substance.

The larger plants cannot be sent by mail.

AZALEA AMÆNA AND VARIETIES.

The varieties of *A. Amœna* bloom early and are very desirable for greenhouse culture, or forcing. They are nearly or quite hardy in this latitude.

Price 50 cents each, (save where priced.) 3 inch pots.

- Amœna. Bright rosy purple, flowers small, hose-in-hose fashion, very distinct, quite hardy. 25 cts. to 50 cts.
- *Caldwelli. A very beautiful variety of *Amœna*; flowers red.
- *Mrs. Carmichael. A hybrid between *Amœna* and *Stella*; color a rich magenta shaded with crimson, the upper segments spotted with black.
- *Obtusa. A beautiful variety of *Amœna* from Japan, with orange scarlet flowers.
- Prime Minister. The flowers of this variety are small, and produced in clusters of from three to five flowers, and sometimes more, and of a pleasing soft pink color, with a deeper shade of the same color towards the base.
- Princess Maude. A very profuse flowering variety, the principal color being magenta, richly shaded with warm rose; a bold striking flower.
- *Princess Beatrice. Light mauve, slightly spotted in the upper petal segment, flowers round and of good shape. Sometimes produces double flowers.
- *Rosafiora, (Rollisonie.) A very beautiful species, with double flowers, well filled in the centre, of a bright rosy salmon color well imbricated, a superb plant from Japan. \$1.00.
- *Wm. Carmichael. A charming variety, rich carmine shaded with magenta, the upper segments beautifully spotted.

CAMELLIAS.

Of this beautiful class of plants, we grow a very choice selection.

Price 50 cts. to \$1 each and upwards, according to size.

BEGONIAS.

Varieties of dwarf growth, cultivated chiefly for their beautiful foliage.

Price 20 cts. each, \$2.00 per dozen, (save where priced.)

*E. Andre. A very beautifully marked foliage. 25 cts.

*Marguerite Bruant. Very distinct foliage. 30 cts.

*W. E. Gumbleton. A beautiful hybrid between Rex and Discolor. 25 cts.

The above are three remarkably beautiful hybrids between Rex and Evansiana.

Begonia Metallica. Veins of a dark metallic hue.

Bettine Rothschild.

Grace Fahnestock. Neat foliage.

Louis Schwatzer. Beautifully marked foliage.

J. L. de Boucher.

Louis Chretien. A very distinct variety.

Marshallii.

Mons. Victor Lemoine. Marbled like lace.

Mrs. H Low.

Negro. Very dark foliage.

Philadelphia. Fine.

Queen of England.

Fire King, (new.) Foliage very bright. 50 cts.

Otto Forster. Its large foliage is of a rich bronzy green, with shining silvery white veined. 30 cts.

Rex.

Robt Buist.

Smaragdina. Green.

The O'Donohue.

Talisman, (new.) Very distinct. 50 cts.

Voie Lactee, (new.) Very fine variety. 50 cts.

The following species and varieties are of taller growth cultivated chiefly for their flowers.

Price 20 cts. each, 1.50 per dozen.

Argyrostigma Picta. Green spotted with white.

Coccinea, (Corallina.) A very beautiful species, a free bloomer, color a bright scarlet.

Evansiana. A beautiful species.

Foliosa. Drooping species, light pink flowers.

Fuchsoides alba. White flowered.

Gibsonii. This variety has double flowers.

Glaucophylla Scandens, (Climbing Begonia)

A beautiful climbing species, admirable for hanging baskets; free grower and bloomer.

Hybrida Multiflora. Scarlet.

Incarnata. Flowers pink.

Imperialis.

Insignis. Flowers rosy crimson, light centre.

Nigricans. Dark shining crimson foliage, flowers pink.

Nitida. Flowers pure white.

Odorata. Sweet scented.

Parnelli. Foliage light green, beautifully spotted with white.

Palmata. Palmated.

Saundersonii. Scarlet.

Weltoniensis. Pretty waxy pink flowers.

Washingtoniana. A very fine winter bloomer, flowers pure white.

FERNS.

Adiantum Gracellinum. A most elegant and distinct Fern, with very light and graceful fronds; the fronds are about a foot long and nine inches across, are thin and fragile. 30 to 50 cts.

***Adiantum Hendersonii.** A very distinct and elegant Maiden Hair Fern. The fronds attain a length of from 30 to 40 inches, and have a graceful arching habit. The mature fronds are a beautiful dark green, the young fronds a bronzy crimson. \$1.00.

***Adiantum Veitchii.** "An extremely ornamental Fern, attracting the eye by the symmetry of its growth. The young fronds are very beautiful, being of a fine red color, that of the mature fronds a pale green." \$1.00 each.

Adiantum Amabile. A very elegant species, with fronds of a beautiful light green color, small and elegant in regard to the size and form, attaining the height of from 15 to 18 inches. 25 to 50 cts.

Adiantum Farleyense. The most magnificent variety of this handsome family; the fronds are of a size and form of *A. trapeziforme*, but pendant, and all the large pinnules are deeply fringed and crisped. 50 cts. to \$1.00.

Adiantum Cardiochloena. A free growing and very beautiful *Adiantum*. 50 cts.

Adiantum Peruvianum. A magnificent species, rivalling the well-known *A. trapeziforme*, in the size of its pinnules, and surpassing it in the elegance of its large compound drooping fronds. 25 to 50 cts.

Adiantum Princeps. A very handsome and distinct *Adiantum* from New Granada, with long arching fronds; pinnules large and closely set upon the rachis; of a pleasing green. 50 cts.

Adiantum Sanctæ Catharinæ. The fronds are from one to two feet in height and decompound. It is a very grand plant and succeeds well in a warm greenhouse. 50 cts.

***Adiantum Seemanni.** A noble species, producing fronds 2 feet long, with a comparatively slender glossy back stipe, bare at the lower part, and bearing, towards the top, from 4 to 8 magnificent large pinnæ. \$1.00.

Asplenium Longissimum. A very useful basket Fern; its pendulous fronds are often from 5 to 7 feet long, and are produced in great abundance, so that the plant is well furnished at all seasons. 50 cts.

Davallia Mooreana. A most beautiful Fern. The fronds are from 2 to 3 feet long, and from 1 to 2 feet wide at the base, triangular and pointed, of a graceful arching habit of growth and most elegantly cut into a multitude of small segments. 30 to 50 cts.

Davallia Tyermanni. One of the most beautiful of all the Hare's-foot Ferns, of dwarf compact habit, having rich dark green fronds. The rhizomes are slender which contrast charmingly with the deep green of the fronds. 50 cts.

Davallia Dissecta. A handsome species, produces fronds from one to two feet in length; it is a splendid Fern for baskets and bouquets. 50 cts.

Dennstedtia Davallioides Youngi. Under pot culture, it has caudices as thick as one's finger, and fronds 7 or 8 feet in length. To this stout and vigorous constitution, it adds the elegance and gracefulness of minute subdivision, so that its fronds, though large are utterly devoid of coarseness; while growing to a large size, it is one of the most finely cut of all the large growing sorts. 50 cts. to \$1.00.

Lastrea Aristata Variegata. One of the most charming of greenhouse variegated Ferns. It is of a rich dark green color, the variegation consists of a band of pale yellowish-green, which runs down the centre of the pinnæ, and includes the mid-rib. 50 cents.

Pteris Serrulata Maxima Cristata. An exceedingly pretty Fern; the leaves are large and finely crested. 50 cents.

Nephrolepis Davallioides, (Furcans.) A beautiful crested variety of the Java Fern *Davallioides*. It is a noble Fern, of robust growth, sending forth, as from a central tuft, numerous arching fronds from three to four feet long. 25 to 50 cents Each.

LOMARIA GIBBA 25 to 0 50

LOMARIA GIBBA CRISPA—crisped leaved 0 50

LOMARIA CILIATA 25 to 0 50

Dwarf tree ferns of great beauty which cannot be too highly recommended to all lovers of this beautiful class of plants.

Microlepia Hirta Cristata. An exceedingly graceful Fern and of free growth. The fronds are very graceful, and it makes a remarkably beautiful specimen for a pot. 30 to 50 cts.

***Platynerium Alaicorne, (Elk's Horn Fern.)** A very handsome and distinct evergreen Fern, succeeds well on block or basket. 50 cents to \$1.00

***Platynerium Grande.** A noble species, when grown on a block of wood makes a remarkably handsome specimen. \$1.00 to \$2.50.

Todea Fraserii. **Todea pellucida.** **Todea Superba.** **Todea Wilksiana.**

There is no family of Ferns which approaches this in beauty. For wardian cases, they are indispensable.

*Rochambeau. Very fine salmon, lower petals, deep rose, blotched purple.....	1 50
Purpureum Auratum. A distinct Cape species, flowers yellow, blotched with purple...	0 25
Saundersonii. Another fine species from the Cape of Good Hope, a brilliant scarlet, white centre, the brightest of all Gladiolus.....	0 75
The Bride, (Colvillii Alba.) The finest pure white Gladiolus, nearly or quite hardy....	0 10

*LILIUMS.

Among the hardy bulbous-rooted Plants, the Lilies are the most beautiful. Nearly all are perfectly hardy. Postage charged on Lilies; in many cases where the variety is cheap and bulb large, postage would be nearly as much as its value.

Auratum. White ground, rayed with golden yellow and spotted with red.....	25 cts. to 0 50
Bulbiferum Auraticum. Orange red, with black dots.....	0 25
Batemanix. A warm apricot, soft and highly attractive, unspotted.....	1 50
Candidum. Large white Lily, grows about four feet high; this is the well-known white Lily.....	0 20
Pleno Monstrosum. A double variety of the last.....	0 30
Chalcedonicum, (Scarlet Turk's Cap.) Grows three or four feet high, flowers brilliant scarlet.....	0 75
Columbiana. Grows 1½ to 2 feet high, flowers small, petals turned strongly backward, orange yellow spotted with purple, an exceedingly neat and interesting dwarf Lily,	0 25
Croceum. Brilliant orange color.....	0 25
Major. A large variety of the last.....	0 50
Dalmaticum. Purple flowers.....	1 50

	Each.
Fulgens (Atrosanguinea or Davuricum) Umbellatum. Grows two or three feet high, flowers erect, brilliant red, dotted with black.	0 15
Erectum. Very erect, brilliant red, spotted black	0 15
Immaculatum. Orange, with large black spots	0 15
Fulgidum. Very brilliant red, spotted black.	0 15
Grandiflorum. A large flowered variety, with black spots	0 20
Incomparable. Brilliant red, spotted black	0 20
Maculatum. Brilliant red, large spotted	0 20
Humboldti, (Bloomerianum.) A fine California species—color rich orange yellow, with spots of deep blood red, grows five to six feet high. A beautiful species and quite hardy.....	0 50
Japonicum Brownii. Very large flowers of the purest white on the inside, purple on the outside.....	1 50
Eximium. Very large flowers of the purest white, a fine variety.....	0 25
Harrisii. A variety of Eximium, a profuse bloomer. The small bulbs will bloom freely.....	0 50
Longiflorum. Stem two feet high, flowers pure white.....	0 20
Longiflorum Floribundum. A very free blooming variety, admirable for forcing	0 50
Takesima. Vigorous grower and free bloomer of the purest white, like the last.....	0 30
Leichtlinii. Canary yellow, with crimson spots.....	1 00
Martagon Flora Alba, (Turk's Cap Lily.) A pure white Turk's Cap Lily, very beautiful.....	1 50
Pardilinum. A fine California Lily, four to five feet high, yellow centre, densely spotted with crimson, reflex of petals deep orange. very fine	0 25
Philadelphicum. Stems two to three feet high, color yellowish red. with purple dots ..	0 25
Pomponicum (Little Turk's Cap Lily) Rubrum. Stem two to three feet high, flowers vermilion red	0 40
Luteum. Flowers yellow.....	0 40
Purpureum. Purple.....	0 40
Parryii. Pure canary yellow, without spots, very fragrant.....	1 00
Pyrenaicum. Flowers yellow, spotted with black.....	0 50
Speciosum (or Lancifolium) Rubrum Verum. Very fine, deep color, beautiful.....	1 00
(or Lancifolium) Rubrum. Japan Lily, stem two to three feet high, color white, suffused with red, and dotted with bright crimson on inner surface, ..	0 25
Album. White flowers.....	0 40
Roseum. White, spotted with rose.....	0 25
Punctatum. White, delicately spotted with rose.....	0 50
Macranthum. A variety of Kubrum, flowers large and highly colored.....	0 50
Melpomme. This fine variety is richer in color than any of the varieties of Speciosum.....	0 75
Monstrosum Album. White, monstrous flowered.....	0 50
Roseum. Rose spotted, "	0 40
Rubrum. Crimson " "	0 40
Precox. Early flowering and distinct variety, flowers pure white.....	0 50
Superbum. Stem four to six feet high, orange spotted with purple, having a grand panicle of 20 to 40 flowers	0 15
Szovitsianum, (Colchicum or Monadelphum.) Stem three to four feet, flowers bright citron yellow with black points; 2½ to 3½ inches long, fragrant and early blooming, ..	1 00
Testaceum, (or Excelsum.) Stem four to five feet high, flowers light yellow, fragrant, hardy, a fine Lily.....	0 50
Thompsonianum. A very distinct species, flowers a fine rose color, bulbs small	0 50
Thunbergianum (or Elegans.) Stem about two feet high, flowers orange scarlet with black spots	0 25
Flora Pleno. Double.....	0 25
Biligulatum. Yellow, spotted with black	0 25
Feukwam. New	0 25
Grandiflorum. Very dark and rich	0 25
Kikak. Nankin spotted dark purple.....	0 25
Tigrinum, (Tiger Lily.) Stem four feet high, flowers brilliant orange red, spotted with black, very showy.....	0 20
Flora Pleno. A double variety of the last, exceedingly beautiful and attractive.....	0 25
Splendens. A grand variety, grows four to five feet high, very robust in growth, with larger flowers, more brilliant and more heavily spotted than the species; magnificent.....	0 50

Venustum. Stem about two feet, flowers bright orange, slightly spotted.....	Each. 0 30
Washingtonianum, (Nevada Lily.) Stem 3 to 4 feet high, flowers white, tinged with reddish purple and lilac dots, fragrant. A grand native Lily.....	0 75

MISCELLANEOUS BULBOUS PLANTS.

*Agapanthus Umbellatus, (African Lily.) Large truss of blue flowers, fine bedded out,	0 50
*Alba. White flowered.....	1 00
*Major. Large flowered.....	1 00
*Variegata. Variegated leaves.....	0 75
*Amaryllis Artemasia, (new.) Pure white, with large vermilion stripes, very large flowers, splendid variety.....	2 50
*Ackermanni Pulcherrima. Glowing crimson, fine form; free blooming, the most beautiful of all the high colored Amaryllis.....	2 50
*Atalante, (new.) Carmine white, darker in the centre, tinted with light rose on the edges. Very fine variety, new shade of color.....	3 00

<i>Coccoloba</i> Platyclada. A singular flat stemmed plant, has no leaves like a cactus.....	0 25
<i>Campylobotrys</i> Discolor. Pretty variegated foliage.....	0 25
<i>Coprosma</i> Baueriana Picturata. The leaves have a smooth surface of pale green, marked with blotches of pale yellow and creamy-white, spreading out from the mid-rib on one or both sides, and assuming a variety of grotesque forms.....	0 30
<i>Crassula</i> Lactea. A very beautiful winter flowering plant of easy culture, flowers freely, color pure white. For cultivating in windows few plants succeed as well as this.....	0 25
Cordata. Another fine species for winter blooming; color pure white, of free growth and profuse flower.....	0 25
Falcata, (<i>Roechia</i>).....	0 50
<i>Curcuma</i> Cordata. It grows 1½ to 2 feet high and the showy part of plant is the peculiar lip-like bracts with which the erect flower spike is thickly furnished.....	0 50
<i>Curculigo</i> Recurvata. A remarkably graceful Palm-like plant, suitable for decorative purposes.....	25 cts. to 0 50
<i>Dalechampia</i> Roeziana Rosea. This fine plant blooms very freely, and produces its flowers nearly throughout the year, but especially so during winter.....	0 40

	Each.
<i>Daphne Odorata Alba</i> . White flowers, very fragrant.....	25 to 0 50
<i>O. Rubra</i> . Nearly white, outside of flower shaded, very fragrant; the variety usually grown	25 to 0 50
*Mazeli, (new) This beautiful Japanese <i>Daphne</i> differs from all the preceding varieties in the flowers being borne on short lateral branchlets all along the branches, instead of, as usual, in dense clusters at the end of the branches. Flowers during winter, tube rosy crimson, petals white shaded with pink, very fragrant foliage, variegated with yellow. Small plants.....	1 00
<i>Eranthemum Andersonii</i> or <i>Elegans</i> . Of free vigorous growth, producing long terminal spikes of its pure white and rich lake flowers during winter.....	0 25
<i>Eldorado</i> . Foliage golden yellow.....	0 50
<i>Pulchellum</i> . Flowers deep blue during winter, very handsome	0 25
<i>Laxiflorum</i> . It is a plant of much beauty, corolla spreading, and of a purplish crimson, quite unique, flowers during autumn and winter.....	0 30
<i>Tuberculatum</i> . Flowers during winter, pure white in profusion.....	0 25
<i>Erythrina Crista Galli</i> . Beautiful summer flowering plant with dark crimson coral-like flowers. The roots, which are fleshy, can be put away in a cellar, like Dahlias, during winter. There is no plant more valuable than this for bedding out in our climate, and very beautiful.....	0 25
<i>Madame Belangier</i> . A very beautiful coral plant, dwarf compact habit, very free flowering.....	0 50
<i>Compacta</i> , (new.) A fine compact growing plant, flowers freely, color rich crim-on. A magnificent plant for bedding out.....	0 50
<i>Eupatorium Riparium</i> . White, blooming January until March.....	0 15
<i>Elegans</i> . Fine winter bloomer, pure white.....	0 15
<i>Triste</i> . (<i>Hebechinum Macrophyllum</i>) Flowers pure white, blooming in January and February. A very useful plant for florists.....	0 25
<i>Euphorbia Sanguinea</i> . A good old plant, the foliage is a purplish crimson, distinct from other dark colored foliage plants.....	0 20
<i>Atropurpurea</i> . Foliage blackish purple, fine for bedding from its very dark color	0 20
<i>Jacquinæflora</i> . Invaluable for winter blooming, of the richest scarlet.....	25 to 0 50
<i>Splendens</i> . Blooms during winter, flowers scarlet.....	0 30
* <i>Francisea Eximia</i> . A pretty winter flowering plant with purplish violet flowers.....	0 75
<i>Hoopena</i> . Flowers violet purple, beautiful	0 50
*Lindeniana. (new.) A very lovely species, flowers in winter, violet purple,	1 00
<i>Fabiana Imbricata</i> . A heath-like plant with pretty white flowers.....	0 20
<i>Fittonia Argyroncra</i> . A trailing plant with light green foliage, beautifully striped with white.....	0 20
<i>Ficus Repens</i> . An admirable plant for hanging baskets, etc.....	0 10
<i>Mimima</i> . Small leaves.....	0 10
<i>Goldfussia Anisophylla</i> . A fine growing winter flowering plant, color blue.....	0 20
<i>Grevillea Robusta</i> . A fine decorative plant.....	25 to 0 50
<i>Gymnostachyum Pearcei</i> . In every respect one of the most beautiful of foliage plants,	0 20
<i>Giganteum</i> . In this species we have a plant of equal beauty with others of the genus	0 15
<i>Verschaffeltii</i> . Stems of a reddish tinge. red leaf stalks, upper surface of the leaf richly painted with reticulations which vary red into brilliant scarlet.....	0 15
<i>Graptophyllum Pictum</i> . Leaves deep green with a large blotch of bright gold in the centre, a beautiful foliage plant, requires a hothouse.....	0 25
<i>Hibiscus Mutabilis</i> . Changeable.....	0 30
<i>Hoya Carnosa</i> , Waxplant. A very beautiful and well known plant.....	0 25
<i>Carnosa Variegata</i> . Centre of leaf green margined with silver.....	0 25
<i>Bella</i> . A delicate growing but charming species.....	0 50
<i>Paxtonii</i> . A distinct and beautiful plant.....	0 50
<i>Impatiens Hookeriana</i> . A very pretty plant, blooms freely during winter.....	0 25
<i>Justicia Carneæ</i> . A winter bloomer, flowers pink.....	0 20
<i>Jasminum Grandiflorum</i> (Catalonian.) Beautiful white <i>Jasamine</i>	0 25
Semi-double.....	0 25
<i>Hirsutum</i> . A beautiful winter flowering <i>Jasamine</i> , flowers in wreaths and bunches of the purest white, deliciously scented.....	25 to 0 50
<i>Revolutum</i> . Yellow	0 25
<i>Kadsura Japonica Marginata</i> . A beautiful half hardy climber, foliage green, margined with gold.....	0 25
<i>Kœmpferia</i> , Species. Very fine foliage plant.....	0 50

	Each.
<i>Linaria Cymbalaria</i> . (Kenilworth Ivy.) A pretty trailing plant.....	0 10
<i>Lavandula Spica Alba</i> . White lavender.....	0 20
<i>Leea Coccinea</i> . A large fine foliage plant.....	0 40
<i>Lingularia Kempferi Argentea</i> . A herbaceous plant nearly or quite hardy with large finely variegated leaves.....	0 30
<i>Libonia Penrhosiensis</i> . Freely producing its fine showy flowers, which are of a bright rich crimson color. It blooms in the depth of winter.....	0 15
<i>Linum trigynum</i> . Yellow flowers, produced abundantly during winter.....	0 30
<i>Laurestinus</i> . (<i>Viburnum Tinus</i> .) For winter flowering.....	0 25
<i>Lasiandra Splendens</i> . Violet purple flower, fine for winter.....	0 40
<i>Macadamia ternifolia</i> . Queen's Land nut.....	0 50
<i>Mahernia Odorata</i> . Winter bloomer, flowers yellow, fragrant.....	0 15
<i>Mikania Violacea</i> . (Parlor Ivy.) A creeping plant with purplish upper surface of leaf.....	0 10
<i>Myrtus Communis</i> . Small leaved Myrtle.....	0 20
<i>Meysenia Erecta</i> . Purple flowers, pretty plant.....	0 25
<i>Alba</i>	0 25
<i>Magnolia Fuscata</i> . A very fragrant species, strong plants.....	
<i>Othonna Crassifolia</i> . An exceedingly beautiful plant for hanging baskets.....	0 10
<i>Ophiopogon Spicatum Argentea Marginatum</i> . A half hardy Japanese plant, with broad grassy leaves, margined with white, and producing freely white flowers.....	0 25
<i>Aurea Marginatum</i> . Similar to the last, but in this variety the variegation is a deep yellow.....	0 25
<i>Olea Fragrans</i> . Fragrant Olive.....	25 to 0 50
<i>Panax Fruticosum</i> . A plant closely allied to <i>Aralia</i> , with beautiful fern-like foliage; a fine decorative plant.....	0 30
<i>Peperomia Argyrea</i> , <i>Magnoliifolia</i> , <i>Verschaffelti</i> , } Dwarf growing plants, suitable for baskets and wardian cases. The leaves are delicately blended, being bright green along the line of the nerves.....	0 15
<i>Pitranemia Mexicana</i> . A pretty dwarf plant, similar to a <i>Primula</i> with rose colored flowers.....	0 25
<i>Plumbago Capensis</i> . We have no plant of the same color to approach this for summer bedding. Plants bedded out in May will continue flowering through the summer, color a delicate azure blue. The plants can be kept in a cellar during winter.....	0 25
<i>Larpenæ</i> . Like the last, this blooms through the summer, color bluish purple, quite hardy.....	0 15
<i>Rosea</i> . Flowers rose color, fine for bedding or winter blooming.....	0 30
<i>Poinsettia Pulcherrima</i> . Fine winter blooming plant.....	25 to 0 50
<i>Alba</i> . White flowered.....	25 to 0 50
<i>Philodendron Lindenianum</i> . Leaves of a delicate satiny green, shaded with metallic olive color on the upper surface, the under part pale green, ornamented with bands of maroon. The young leaves are of a bright chamois color, and the maroon bands of the under parts penetrate through to the upper, so that the coloring of the plants has a glistening and indescribable effect.....	0 50
<i>Pittosporum Tobira</i> . Very fragrant shrub.....	0 25
<i>Variegata</i> . Variegated.....	0 25
<i>Rhodea Japonica</i> . Leaves green, edged with yellow.....	0 40
<i>Rogiera Amœna</i>	0 30
<i>Gratissima</i> , (new).....	0 50
Winter flowering plants, as fragrant as the <i>Heliotrope</i> .	
* <i>Rhododendron formosum</i> . A fine Indian species, flowers white.....	1 00
<i>Rondeletia Speciosa Major</i> . A very beautiful stove plant, flowers scarlet, very fine.....	0 50
<i>Russellia Juncea</i> . Pretty basket plant, scarlet flowers.....	0 25
<i>Ruellia formosa</i> . A free winter blooming plant, with scarlet flowers.....	0 25
<i>Rudgea Macrophylla</i> . A handsome plant, flowers cream color.....	0 50
The underside of the young leaves has a peculiar satiny lustre, flowers in massive clusters of white wax-like flowers, which in an unopened state resemble berries.....	
<i>Senecio Scandens</i>	1 00
<i>Sanchezia Nobilis Variegata</i> . Leaves of most intense green, the veins being broadly margined with golden yellow.....	0 10
<i>Stevia Compacta</i>	0 25
<i>Variegata</i> . Variegated.....	0 15
<i>Nana</i> . A new dwarf variety.....	0 15
<i>Syngonium Albo-lineatum</i>	0 50

	Each.
Torenia Asiatica. Rich blue and dark violet.....	0 20
Fournierii. The habit is more compact than T. Asiatica, the flowers are richer in color and more freely produced. It succeeds admirably bedded out.....	0 15
Bellonii. A pretty variety similar to the last in habit, and like it, suitable for bedding out, bright yellow, with a black eye, very distinct.....	0 20
Tradescantia Zebrina. Zebra plant.....	0 10
Striata. A pretty striped variety.....	0 10
Multicolor, "Madam Lequesne." The leaves are pale green, beautifully variegated with white and rosy purple; sometimes the leaf is entirely suffused with either color.....	0 20
Repens Vittata.....	0 10
Discolor. Two colored.....	0 25
Veronica. A pretty class of plants, giving long spikes of bloom during fall and winter. A collection of the finest varieties.....	0 25
Vanilla Aromatica. The well known Vanilla of commerce.....	0 50

Stellata Flora Pleno. A magnificent new Japanese variety, flower heads very large, double, of a bright pink	0 25
Thunbergii Flora Percis. A distinct species, much smaller foliage, and flat cymes of pretty blue flowers.....	0 25
Thomas Hogg. This belongs to the Hortensia section of the family, but it is a far more free and abundant bloomer than any other; the flowers are of the purest white, of very firm texture, and continue in flower for a great length of time.....	0 25

EVERGREENS, &c.

Aucuba Japonica. The mottled leaves of this fine evergreen have long formed one of the most familiar objects in cultivation, but the scarlet berries have appeared but of late in consequence of

the absence until recently, of male plants. There are quite a number of fine varieties recently introduced, differing in the form or variegation of the leaf.....

	Each.		Each.
<i>Aucuba Himalaica</i> . A fine evergreen, broad green leaves.....	0 50	<i>Helianthemum</i> . This is a pretty class of dwarf trailing shrubs, suitable for rock work, baskets, &c.	
The following are some of the finest varieties:		<i>Cupreum pleno</i> . Double, copper colored.....	0 25

* \$10 Collection.

Embraces the collection of plants as in the \$15 collection, from Monthly Roses to Hydrangeas, inclusive.

* \$5 Collection.

Half the \$10 collection.

* Plants Free by Mail.

We have for some years forwarded plants in large numbers by mail to the most distant parts of the Union, as Texas, Utah and Pacific Coast with perfect success. All of which are properly labeled and carefully packed in boxes or oiled paper. The following plants will be sent by mail, prepaid, our selection, at the prices annexed, or any new plant can be forwarded in the same way. No order for less than one dollar will be filled. This rule is necessary, as the mailing of one or two cheap plants will not compensate us, in the hurry of business, for the time and labor of packing, directing, pre-paying postage, etc.

Either of the following collections free by mail, for \$1.00.

All Plants suitable for mailing at Catalogue rates. Not less than one dollar's worth sent in one order.

Premiums on all orders.

CARPENTERIA CALIFORNICA.

This is an extremely rare shrub, even in its native habitat. It is a handsome shrub, the flowers being large pure white, with yellow tipped stamens. The leaves are broadly lance-shape, of thick texture, with recurved margins; it grows from six feet to fifteen feet in height, and is very bushy. One of the most valuable shrubs which have been introduced for years. "A great acquisition."

PREMIUMS.

I was Awarded the following Premiums at the
Cincinnati Industrial Exposition.

FIRST PREMIUM—"Best Group of Crotons."

FIRST PREMIUM—"Best Single Specimen of Croton."

FIRST PREMIUM—"Best Group of Dracænas."

FIRST PREMIUM—"Best Group of Marantas."

FIRST PREMIUM—"Best Single Specimen of Maranta."

FIRST PREMIUM—"Best Single Specimen of Dieffenbachia."

SECOND PREMIUM—"Second Best Group of Variegated Foliage Plants."

FIRST PREMIUM—"Best Single Specimen of Variegated Foliage Plant."

SPECIAL PREMIUM—"For Davallia Mooreana."

I have also been Awarded for several years, leading Premiums by the MARYLAND HORTICULTURAL SOCIETY and DISTRICT OF COLUMBIA HORTICULTURAL SOCIETY for Dracænas, Crotons, Foliage Plants, Stove and Greenhouse Plants, Ferns, &c. In Cut Flowers, for Dahlias, Roses, Phloxes, Herbaceous Plants, &c.

At the NATIONAL FAIR ASSOCIATION, WASHINGTON, D. C., I have also been awarded the leading Premiums.

SEAFORTHIA ELEGANS.

This is a most graceful Palm, eminently adapted for the decoration of the greenhouse and garden. It also makes a fine window plant; leaves are very long and gracefully arched, dark green, the whole plant perfectly smooth, a grand decorative plant.

Price per Plant, \$1.50 to \$2.50.
